The Ohio State University

Mission and Vision Statement

The Ohio State University has as its mission the attainment of international distinction in education, scholarship, and public service. As the state's leading comprehensive teaching and research university, Ohio State combines a responsibility for the advancement and dissemination of knowledge with a land-grant heritage of public service. It offers an extensive range of academic programs in the liberal arts, the sciences, and the professions.

Ohio State provides accessible, high-quality undergraduate and graduate education for qualified students who are able to benefit from a scholarly environment in which research inspires and informs teaching.

At Ohio State, we celebrate and learn from our diversity and we value individual differences. Academic freedom is defended within an environment of civility, tolerance, and mutual respect.

The Ohio State University is a community of scholars in which:

- teaching and research are recognized as part of the same process: learning;
- academic units and curricula are structured to foster learning and nurture creativity;
- administrative services, facilities, and technology enrich the academic experience;
- academic programs and research opportunities are extensive and excellent, but not exhaustive; and
- human resources complement our promise. High-ability students, faculty, and staff from diverse backgrounds participate in leading programs and enrich an environment that sustains learning and growth.

Affirmative Action, Equal Employment Opportunity and Non-Discrimination/Harassment Policy

The Ohio State University is committed to building a diverse faculty and staff for employment and promotion to ensure the highest quality workforce, to reflect human diversity, and to improve opportunities for minorities and women. The university embraces human diversity and is committed to equal employment opportunity, affirmative action, and eliminating discrimination. This commitment is both a moral imperative consistent with an intellectual community that celebrates individual differences and diversity, as well as a matter of law.

Discrimination against any individual based upon protected status, which is defined as age, ancestry, color, disability, gender identity or expression, genetic information, HIV/AIDS status, military status, national origin, race, religion, sex, sexual orientation, or veteran status, is prohibited.

For more information or questions regarding University Policy Number 1.10, contact The Ohio State University Office of Human Resources, 1590 N. High St., Suite 300, Columbus, Ohio 43201-2190; 614-292-1050.

At The Ohio State University, every effort is made to provide accurate and up-to-date information. However, the university reserves the right to change without notice statements in university publications concerning rules, policies, fees, curricula, courses, or other matters when necessary. In addition, Ohio State is currently reviewing and restructuring many of our academic programs in an effort to enhance their quality and improve our efficiency. In that process, some of the programs and courses mentioned in this bulletin may be modified, consolidated with other programs or courses, or eliminated.
Mission
The Ohio State University Agricultural Technical Institute provides educational programs leading to associate degrees in agriculture, horticulture, environmental sciences, business, and engineering technology. With a high value placed on lifelong learning, we provide accessible, high-quality, applied educational experiences. Our goal is to prepare individuals to be technically competent, self-reliant, and productive citizens in a global society.

The purposes of the institute are to offer: 1) associate of science and associate of applied science degrees and certificates which include general and technical courses; 2) credit and non-credit continuing education and workforce development opportunities; and 3) transfer programs leading to higher levels of education.

Emphasis is placed on: 1) preparing technically proficient individuals for various careers; 2) developing skills and abilities in problem solving, critical thinking, leadership, and communication; and 3) fostering an environment where diversity is valued and integrated throughout the institute.

General Information
Ohio State ATI provides outstanding educational opportunities for students interested in careers in agriculture, horticulture, business, engineering technologies, and the environment. Twenty-four programs of study leading to the Associate of Science, Associate of Applied Science, or Associate of Technical Study prepare students for careers in as little as two years.

An Ohio State ATI education is based on the premise that students learn best when they participate actively in the learning process. Teaching and learning reach beyond the classroom to the laboratories, greenhouses, studios, and farm facilities that complement the Ohio State ATI campus. An experiential learning approach to education lets students learn by doing, complementing traditional classroom instruction.

To help students succeed, Ohio State ATI offers a personalized learning environment in which students receive individual attention from faculty with real-world knowledge and expertise. A student/full-time faculty ratio of 18:1 gives students the opportunity to work side-by-side with faculty who take a personal interest in their success.

In an increasingly competitive job market, experience coupled with technical training makes the difference. Fifty-nine percent of Ohio State ATI graduates report they had secured employment before graduation.

Internships are an invaluable part of an Ohio State ATI associate of science degree. Students complete internships to gain work experience, make professional contacts, earn money, and receive academic credit. Faculty and staff assist students in locating internships that reflect their career goals and interests.

Ohio State ATI is located in a major agricultural center one and one-half miles southeast of Wooster, Ohio, and is easily accessible from any area of the state. The city serves as the Wayne County seat and is home to approximately 26,000 people. In addition to an expanding number of concerts, intramural sports, dances, and other activities held on campus, the surrounding community provides students opportunities to attend theater and cultural events, YMCA programs, movies, and fairs. Wooster is within an hour’s drive of Cleveland, Akron, and Canton, which offer a variety of activities including major league sports, concerts, and shopping.

Established in 1969, Ohio State ATI has a statewide mandate to provide comprehensive agricultural education. The institute is an administrative unit of The Ohio State University College of Food, Agricultural, and Environmental Sciences and maintains a close relationship with the Ohio Agricultural Research and Development Center (OARDC), Ohio State University Extension (OSUE), and the Ohio Department of Higher Education. These affiliations provide students access to additional resources and opportunities.

The Ohio State University is a member of the Association of American Universities, the National Association of Land-Grant Colleges and State Universities, and the Higher Learning Commission (phone 800-621-7440, www.hlcommission.org).
Academic Opportunities
Ohio State ATI offers the Associate of Applied Science, the Associate of Science, and the Associate of Technical Study degrees. All degrees include courses in communication, social sciences, mathematics, and science basic to the technical component of the program. (The code following each program will be used on your Application for Admission)

Associate of Applied Science
The Associate of Applied Science degree program provides students with the technical and management skills to enter the workforce in middle management positions. Each curriculum has minimum requirements that have been established with input from industry advisory committees.

The Associate of Applied Science degree is offered in the following areas:

Business Management ...................... BUSMGT-AA
Construction Management ............. CNSTMGT-AA
Crop Management and Soil Conservation ............ CRPSOIL-AA
Dairy Cattle Production and Management ............ DYPMGMT-AA
Greenhouse and Nursery Management ............ GHNRMTG-AA
Horse Production and Management ............ HRSPMTG-AA
Hydraulic Power and Motion Control ............ HYDRPWR-AA
Landscape Horticulture .......... LANDHRT-AA
Livestock Production and Management ............ LVBSRSW-AA
Power Equipment .......... POWEREQ-AA
Turfgrass Management .......... TUFGMGT-AA

Associate of Science
The Associate of Science degree program is designed to prepare individuals to transfer to a Bachelor of Science degree program in the College of Food, Agricultural, and Environmental Sciences at The Ohio State University. Students can complete approximately 50 percent of the requirements for a bachelor's degree while capitalizing on the experiential learning, small, caring campus environment and other advantages provided by Ohio State ATI.

Associate of Science degree programs can be transferred to various departments at the Columbus campus, including Agricultural Communication, Education and Leadership; Agricultural, Environmental, and Development Economics; Animal Sciences; Food, Agricultural, and Biological Engineering; Food Science and Technology; Horticulture and Crop Sciences; and the School of Environment and Natural Resources.

The Associate of Science degree option is available in the following areas:

Agribusiness ......................... AGRIBUS-AS
Agricultural Communication .......... AGRICOMM-AS
Agricultural Systems Management . AGSYSMT-AS
Agriscience Education ................. ASE-AS
Agronomy ....................... AGRONOM-AS
Animal Sciences ....................... ANIMSC-AS
Biochemical Sciences .......... BIOCHSC-AS
Community Leadership ............ COMLDR-AS
Construction Systems Management ......... CONSYSM-AS
Environment and Natural Resources ......... ENVNATR-AS
Food Business Management ....... FDBUSMG-AS
Horticultural Science ............ HORTSCI-AS
Sustainable Agriculture .......... SUSTAG-AS

1 + 3 Program
The professional golf management (PGM) program is a four-year curriculum for aspiring PGA professionals. The objective of the PGM program at Ohio State ATI is to allow students to complete the first year of the Bachelor of Science in Professional Golf Management. After one year, students transition to the Columbus campus to complete the remainder of the program.

Professional Golf Management .......... PGM-PRE-AI

Associate of Technical Study
The Associate of Technical Study degree allows students to create a unique curriculum that focuses on special interests based on individual career goals. An educational plan identifying the courses chosen must be approved before the student earns 30 credits. The approval process begins after enrollment with the student's advisor.

Undeclared Majors
Students who have not yet decided on a major should enter the following code on their Application for Admission:
Undeclared ......................... ATI-UNDEC

Certificate of Competency
The Certificate of Competency is a program that can be completed within a year. These programs emphasize technical courses.

Hydraulic Service and Repair .......... HYDSERV-CR
Turfgrass Equipment Manager ........ TURFEQP-CR
Continuing and Professional Education Options

The Ohio State ATI Business Training and Educational Services Program offers opportunities for adults to upgrade their skills to meet the requirements of current technology and to retrain for new positions. The instructional offering consists of credit courses; noncredit workshops, seminars, and certificate programs; and specialized programs contracted with individual companies or associations.

Credit courses  Students can enroll on a non-degree basis in any credit course offered at ATI. Non-degree students may enroll full- or part-time and can choose to audit courses or take courses for a grade.

Certificate programs  These programs consist of courses, workshops, and seminars aimed at upgrading an individual’s skills and qualifications to meet the needs of technological change.

- Certificate of Completion given to students completing a course or series of courses in a specific skill area.
- Certificate of Achievement given to students completing a pre-approved series of courses. This series of courses may be a prescribed curriculum designed to meet the employment qualifications for a specific job classification or may be individualized to meet the career goals of the student.

Transitioning to Columbus Campus

Students who have completed at least 30 semester credit hours post-high school (may include transfer hours) and have a minimum cumulative college GPA of 2.0 are eligible to transition to the Columbus campus.

Fees and expenses

All fees are subject to change.

Application fee ......................... $60
Required of every student upon first application to the university. Nonrefundable and not applicable toward any other university fee. Fee for international applicant is $70.

Acceptance fee ....................... $100
Required of every degree-seeking student upon first admission to the university. Nonrefundable and not applicable toward any other university fee.

Course fees ......................... variable
A course fee is assessed for any term in which the student is enrolled in the following:

- BIOLOGY 1101 .................. $80
- BIOLOGY 1113.01, 1114.01 .......... $50
- BIOTECH 2218T .................. $50
- CHEM 1110, 1210, 1220 ............. $50
- GENBIOL 1200T, 1250T .......... $50
- PHYSICS 1200 ..................... $50

Distance education fee .......... $100

Housing space reservation and academic-year fees ........$350/$125
All students in campus housing are assessed a space reservation fee of $350 ($300 of which is refunded if they complete the conditions of their lease) and a $125 per year non-refundable fee for academic year housing.

Housing – ATI Hall Council Program fee ..............$20/semester
Required of all students living on campus.

Publication fee ......................... $2
Assessed for all students in the College of Food, Agricultural, and Environmental Sciences including Ohio State ATI in their first term of enrollment for the academic year.

Safety and Security fee . $22.50/term
Ohio State ATI students are assessed this fee for safety and security costs on the Wooster campus, even when students are on internship.

Student health insurance .................. $1765/semester
Students will be billed for health insurance through the university unless they opt out of insurance at the time of registration.

*Qualified Residents*: Ohio Law requires male students between the ages of 18 and 26 to be registered with the Selective Service System, unless they are on active duty with the armed forces of the United States (other than the National Guard or Reserves) or legally excluded, to be eligible for state educational assistance programs. Residents who are not registered or have not indicated they do not need to register by the first day of the semester are required to pay the Out-of-State Tuition as required by Ohio law. Students can register with Selective Service in the year they become 18 and must complete registration by 30 days after their 18th birthday. Selective Service registration can be accomplished within a few minutes at www.sss.gov. Students wishing to indicate exempt status can request materials to do so by contacting The Ohio State University Buckeye Link at 614-292-0300.

**Non-resident tuition is reduced for students enrolled in a degree/certificate program and taking all distance learning classes.**

### University fees

The university reserves the right to change fees without notice. Undergraduate students enrolled in any semester or term for 12-18 credit hours will be assessed full fees. Fees for undergraduate students enrolled for 11 or fewer credit hours shall be assessed fees on a per-credit hour basis. Students taking over 18 credit hours pay the full-time tuition plus the per credit hour rate for each additional hour.
Curricular information

Graduation requirements
To obtain a degree at Ohio State ATI a student must:
• earn the minimum number of semester credit hours required with a cumulative point-hour ratio of 2.00 or above;
• satisfactorily complete a prescribed curriculum;
• earn a minimum of 30 credit hours through regular course work at the institute (exclusive of the internship);
• complete an occupational internship with a grade of C (2.00) or better, if included in the degree requirements;
• complete the prescribed hours of practicum with a grade of C (2.00) or better in each semester of practicum enrollment; a maximum of 9 credit hours of practical experience courses (e.g., practicum and internship) will count toward graduation.
• file an application for the degree in accordance with institute deadlines; and
• enroll in the institute during the last semester necessary to complete the degree requirements. This may be waived on petition by the student.

Credit by examination
Ohio State ATI offers the opportunity to earn college credit through satisfactory achievement on a variety of examinations. The credit by examination (EM) program is available to all currently enrolled students for most courses during the semesters they are offered. Students interested in this opportunity should contact the course instructor.

Associate of Applied Science
Each curriculum has minimum requirements (described on pages 7-17) that have been established with input from industry advisory committees.

Associate of Science
The curriculum includes both courses required for the Bachelor of Science degree and selected Ohio State ATI courses. The courses will transfer to fulfill major or minor requirements or may be used as electives. Practical applications may be required through internship and/or practicum. Each curriculum has minimum requirements which are described on pages 18-32.

Associate of Technical Study
In addition to the general graduation requirements, students pursuing the Associate of Technical Study (AT) degree must meet the following requirements:

General Education
English composition; social science or humanities; mathematics; natural sciences; and applied Gen. Ed. ........................................... minimum 30 credits

Technical Studies courses
Courses chosen in consultation with an advisor….. ..........................................................30-35 credits

Certificate programs
Certificates are available on both a credit (Certificate of Competency) and noncredit (Certificate of Completion and Certificate of Achievement) basis. For a description of the three certificate options, see pages 3 and 4.

Internship and practicum
Occupational internship is a required course in all Associate of Applied Science programs. It consists of a minimum of one academic semester of employment in the student’s specialized field of study and completion of a major written report. For this course, the student enrolls for credit, pays fees, receives grades, is supervised by Ohio State ATI personnel, and is paid a salary by the employer.

Practicum is a course of supervised practical experience required in most Associate of Applied Science programs. The practicum is designed to develop and improve occupational skills beyond the levels achieved in normal classroom and laboratory activities.
Associate of Applied Science Degree programs

Business Management

The objective of this program is to prepare individuals to assume various positions such as sales, customer service, as well as entry level management with businesses involved in retailing, wholesaling, manufacturing, and/or agriculture.

Career opportunities

The Business Management program provides students with the tools they need to be successful in a business career or to start, run and manage a business. There are numerous opportunities in the business world for individuals with good interpersonal skills and the knowledge of accounting, marketing, and computers.

Curriculum

The curriculum emphasizes management skill development, marketing, accounting, computer technology, human resource management, business law, and small business operations. By choosing a specialization in either General Business or Agricultural Business, the students have the opportunity to gain more knowledge about a specific industry. General Business students gain more in-depth understanding of the business world by taking classes such as Fundamentals of International Business and Foundations of Personal and Professional Leadership. Agricultural Business students choose a specialty in agriculture where they take a minimum of six credit hours of classes within their chosen area.

Specialization courses

Agricultural Business

Additional Natural or Applied Science
AEDECON 3141 Agricultural Cooperatives

General Business

Humanities Elective

- The student must earn a grade of “C” or higher in this course to receive an Associate of Applied Science Degree in Business Management.

Course descriptions begin on page 36.

Applied learning opportunities

Business management students must also complete an industry internship consisting of 450 hours of full-time employment in the field of their study or interest.

Other degree options

Students interested in earning a bachelor’s degree may be interested in the Associate of Science degree in Agribusiness or Food Business Management.
Construction Management
The objective of this program is to educate and prepare individuals for technical and management careers in the construction industry; emphasis is primarily on building construction, with an introduction to other sectors of the construction industry provided as well.

Career opportunities
Career opportunities are available with general contractors, testing and inspection firms, home builders, land surveyors, agricultural builders, building material retailers, and manufacturers. Graduates could fill roles such as project engineer, site supervisor, assistant superintendent, estimator, or assistant project manager.

Facilities
The Ohio State ATI construction laboratory provides space and learning opportunities for students to design, construct, test, and evaluate construction materials and system components. The Ohio State ATI computer lab features industry specific software such as Bluebeam, Procore, P6 Professional, AutoCAD, and Revit which are utilized in technical courses throughout the program.

Applied learning opportunities
Construction Management students must also complete an industry internship consisting of at least 480 hours of full-time employment in a work experience related to their career interest.

Construction Management students also have opportunities to engage with professionals, network, and develop advanced skills through attending construction industry conferences as well as volunteering with the local Habitat for Humanity.

Curriculum
The construction management curriculum emphasizes two major content areas: building science and business management.

•The student must earn a grade of “C” or higher in this course to receive an Associate of Applied Science Degree in Construction Management.

Course descriptions begin on page 36.

Other degree options
Students interested in earning a bachelor’s degree may be interested in the Associate of Science degree in Construction Systems Management.
Crop Management and Soil Conservation

The objective of this program is to educate students to maximize the quality and quantity of cereal and forage crop yields through the application of scientific principles. Students enrolled in this program may specialize in crop management or soil conservation.

Career opportunities

Graduates are employed as farm managers, machinery operators, and field persons for seed, fertilizer, and chemical companies, and grain elevators. Graduates may be self-employed through custom application of farm chemicals and fertilizers.

Curriculum

Students in the program study grain and oil seed production, forage production, soil science and management, pest management, and machinery management.

*The student must earn a grade of “C” or higher in this course to receive an Associate of Applied Science Degree in Crop Management and Soil Conservation.

Course descriptions begin on page 36.

Facilities

Students are involved in field work and related activities at the 1,700-acre Grace Drake Learning Laboratory and the 143-acre Land Laboratory.

Applied learning opportunities

The practicum course provides students with supervised, practical work experience, and an opportunity to apply classroom instruction in the field.

An internship provides students with an opportunity to gain industry experience through full-time employment for 450 hours in the area of their interest.

Other degree options

Students interested in earning a bachelor’s degree may be interested in the Associate of Science programs in Agricultural Systems Management, Agronomy, or Sustainable Agriculture.
Dairy Cattle Production and Management

The objective of this program is to educate students in techniques of dairy production and management for careers with dairy farms and associated dairy businesses and industries.

Career opportunities

Dairy cattle production and management positions are available in production management, service, sales, and quality control.

A graduate of the dairy cattle production and management program could fill the following positions: herd manager, dairy farm manager, dairy field representative, dairy technician, or sales representative in the dairy industry. Careers opportunities are available on dairy farms and nutrition, milk quality, reproduction, genetic, equipment, and other related dairy businesses.

Curriculum

The curriculum includes principles and application of milk production, genetics, reproduction, nutrition and feeding, health, animal selection, and financial management.

Technical electives (from approved list)

- The student must earn a grade of "C" or higher in these courses to receive an Associate of Applied Science Degree in Dairy Cattle Production and Management.

Course descriptions begin on page 36.

Facilities

The Wooster Campus Dairy facilities are home to around 200 Holstein cows at Krauss Dairy and more than 200 Holstein and Jersey heifers at Grace Drake Learning Laboratory. Animals are housed in free-stall barns with drive-through total mixed ration feeding. The fully automated double-eight parabone milking parlor is equipped with electronic identification, computerized milk weight recorders, and herd management software.

On-site computer systems house internal herd and financial records and are online with the Dairy Herd Improvement Association’s processing center and breed association. In addition, feeding and nutrition tracking software and an electronic health and reproduction monitoring system are used in herd management.

Applied learning opportunities

Students take Applied Dairy Herd Practices and Management (supervised, practical work experience), which provides an opportunity to apply and practice skills learned in class at the Krauss Dairy their second academic year.

Dairy students must also complete an industry internship consisting of a minimum of 400 hours of full-time employment in the dairy industry. Internship locations and type of dairy business – production or agri-business – are based upon student field of study or interest.

Opportunities are available for students to participate in a variety of activities like the national award-winning dairy cattle judging team, Dairy Challenge, and the Ohio State ATI Dairy Club.

In addition, part-time jobs are available on many of the 200 dairy farms in the local county (Wayne County) while attending Ohio State ATI.

Other degree options

Students interested in earning a bachelor’s degree may be interested in the Associate of Science program in Animal Sciences – Animal Industries Specialization.
Greenhouse and Nursery Management

The objective of this program is to educate individuals for managerial positions in the controlled environment agriculture (CEA) related industries.

Career opportunities

Depending on the specialization, graduates will find job opportunities in greenhouse and/or nursery businesses, indoor farms, garden centers, public horticulture, plant propagation, and horticultural supply companies. Graduates may fill the following positions: greenhouse and/or nursery grower, manager, technician, and sales.

Curriculum

The curriculum emphasizes greenhouse crop production and greenhouse environmental controls and include hands-on experience in the production, harvesting, handling, use of floriculture and food crops, and greenhouse maintenance. Pest and pathogen management principles are taught and practiced. In addition to business management and marketing, merchandising and selling plant products are presented.

Facilities

The Ohio State ATI production and propagation greenhouses, hydroponics production systems and the outdoor display gardens provide opportunities for practical experience in greenhouse and nursery production. In addition, facilities at OARDC and Secrest arboretum are used.

Applied learning opportunities

Students take practicum (supervised, practical work experience in campus greenhouses and outdoor nursery), which provides an opportunity to apply skills learned in class. Students must also complete an industry internship consisting of 450 hours of full-time employment in the greenhouse or nursery industry.

Other degree options

Students interested in earning a bachelor’s degree may be interested in the Associate of Science program in Horticultural Science.
Horse Production and Management

The objective of this program is to prepare individuals for employment in the horse industry.

Career opportunities

A variety of opportunities exist in horse training, horse breeding, stable management, and other equine support industries. Graduates are prepared for employment in independent or corporate-owned units. Additional employment opportunities exist in businesses which supply goods and services to horse-related industries.

Horse production majors may find positions as trainers, instructors, breeding farm managers, stallion managers, stable managers, breed association representatives, race track or veterinarian clinic employees, or marketing representatives for feed, tack or equipment companies.

Curriculum

The curriculum includes principles and practical application of training, nutrition, reproduction, genetics, live animal evaluation, health, equine marketing and facility design and management. Business and accounting principles are also presented. Practical application and hands-on experiential learning are emphasized at Ohio State ATI's horse facilities.

**The student must earn a grade of “C” or higher in these courses to receive an Associate of Applied Science Degree in Horse Production and Management.

If ANMLTEC 2800T (2 cr) is taken, 3 technical elective credits are required. If ANMLTEC 2801T (3 cr) is taken, 2 technical elective credits are required.

Course descriptions begin on page 36.

Applied learning opportunities

Students take practicums (supervised, practical work experience), which provide an opportunity to apply skills learned in class. Supervisory experience can be gained in a required Leadership practicum.

Horse students must also complete an industry internship consisting of 450 hours of full-time employment in the field of their study or interest.

Other degree options

Students interested in earning a bachelor’s degree may be interested in the Associate of Science program in Animal Sciences – Horse specialization.
Hydraulic Power and Motion Control

The objective of this degree program is to prepare students to service, design, and sell hydraulic, electrohydraulic, and pneumatic equipment and systems.

Career opportunities
Hydraulic power and motion control is rapidly expanding into numerous segments of industry. Hydraulic power and motion control graduates are employed as service or production technicians, test technicians, applications engineers, market and product engineers, quality control technicians, troubleshooters, and sales representatives.

Curriculum
Areas of study include power transmission, properties and application of hydraulic components, repair and maintenance of fluid power system components, system design and analysis, control circuits, electrohydraulics, instrumentation, and troubleshooting of fluid power systems.

General Education
AGRCOMM 3130 Oral Expression in Agriculture

• ENGTECH 2248T Instrumentation and Control Systems
• ENGTECH 2312T Engineering Technology Fundamentals
• ENGTECH 2325T Analog and Digital Electronics
• ENGTECH 2336T Methods of Power Transmission

The student must earn a grade of “C” or higher in these courses to receive an Associate of Applied Science Degree in Hydraulic Power and Motion Control.

Course descriptions begin on page 36.

Facilities
Students utilize a state-of-the-art fluid power lab with specialized facilities and equipment in hydraulics, pneumatics, and electronics. Students design, assemble, and test an array of fluid power components and systems in the fluid power lab.

Applied learning opportunities
Hydraulic Power and Motion Control students must complete an industry internship consisting of 450 hours of full-time employment in the field of their study.

Hydraulic Power and Motion Control students also participate in state and national industry trade shows, meetings, and scholarship programs.
Landscape Horticulture
The objective of this program is to prepare individuals to enter the workforce in a variety of landscape related industries. Students learn sustainable techniques that develop responsibility as tomorrow’s land stewards.

Career opportunities
Career opportunities exist with landscape businesses, recreational organizations such as amusement parks, and large organizations with grounds to be managed and maintained. Graduates may fill positions such as designer, landscape crew leader, account manager, landscape manager, or horticulturist.

Curriculum
The Landscape Horticulture program provides students a broad introduction to all areas of landscaping, including design, management, construction, and pest control. Students will practice their skills not only on the Ohio State ATI grounds but will work with outside clients as well. Basic classes in plant identification, landscape design, and landscape construction lead to more advanced classes in weed science as well as pest identification and control.

Ohio State ATI’s Landscape Horticulture program is one of only 19 two-year programs in the nation to be accredited by the National Association of Landscape Professionals, the national trade association for landscape professionals.

Course descriptions begin on page 36.

Applied learning opportunities
Landscape students must also complete an industry internship of 450 hours of full-time employment in their chosen field of study.

Other degree options
Students interested in earning a bachelor’s degree may be interested in the Associate of Science program in Horticultural Science.
Livestock Production and Management

The objective of this program is to prepare individuals for successful employment in beef, swine, or small ruminant production or related industries.

Career opportunities
Livestock production majors may find positions in the areas of beef, swine, sheep or goat production, related service industries, and sales of related products. A variety of commercial opportunities exist in purebred, commercial or club-animal production. Graduates are also prepared for employment in entry-level positions in agri-businesses such as breed associations, artificial insemination centers, animal research laboratories, feed and pharmaceutical companies and the meat industry.

Curriculum
The curriculum emphasizes the principles and practical application of reproduction, genetics, nutrition, live animal and carcass evaluation, health, facility design, and record use in the efficient management of all phases of production. Business and accounting principles are also presented. Practical application is emphasized at the Ohio State ATI Grace Drake Learning Laboratory which houses beef, swine, and goats.

Facilities
Ohio State ATI's Grace Drake Learning Laboratory houses a 100 cow beef herd along with a small herd of swine. The beef herd includes purebred and commercial animals. The farm also has access to a herd of goats and the sheep flock housed at the Ohio Agricultural Research and Development Center.

Applied learning opportunities
Students take operations management courses (supervised, practical work experience) which provide an opportunity to apply skills learned in class.

Students also complete an industry internship consisting of 450 hours of employment in the field of their study and interest.

The student must earn a grade of “C” or higher in these courses to receive an Associate of Applied Science Degree in Livestock Production and Management.

Course descriptions begin on page 36.

Other degree options
Students interested in earning a bachelor’s degree may be interested in the Associate of Science programs in Animal Sciences – Animal Industries.
Power Equipment

The objective of this program is to prepare students for careers involving the purchase, utilization, maintenance, repair, and sale of off-road machinery.

Career opportunities

Career opportunities are available with agricultural equipment, construction equipment, and industrial equipment dealerships, manufacturers of mobile equipment, contractors, and fleet operations.

Curriculum

Areas of study include internal combustion engines; agricultural, construction, and industrial equipment; electronics; hydraulics; air conditioning; metal fabrication; power transmission; business management; marketing; and sales.

- The student must earn a grade of “C” or higher in these courses to receive an Associate of Applied Science Degree in Power Equipment.

Course descriptions begin on page 36.

Facilities

Students utilize a fully equipped power equipment lab. In addition, students also utilize the institute’s campus equipment along with the latest agricultural equipment in their course work.

Applied learning opportunities

Power Equipment students must complete an industry internship consisting of 450 hours of full-time employment in the field of their study and interest.

Students participate in local and state industry trade shows, meetings, and scholarship programs.
Turfgrass Management
The objective of this program is to educate and prepare individuals for technical and management positions in the golf course and sports turf industries.

Career opportunities
Career opportunities exist with golf courses, sports turf facilities, lawn care services, sod farms, parks, educational and corporate campuses, and other institutional grounds, and other decorative and recreational users of turfgrass. With sufficient on-the-job experience, a graduate of the turfgrass program could fill one of the following positions: golf course superintendent, sports complex field operations manager, lawn care manager, sod farm manager, turf research technician, or sales representative within the turf industry.

Curriculum
The curriculum emphasizes botany, turfgrass science and turfgrass facilities management; weed, insect, and disease management; maintenance of other ornamental plants; irrigation and drainage; pesticide usage; and power equipment maintenance and operation.

General Education
AEDECON 2001 Principles of Food and Resource Economics
AEDECON 2105 Managerial Records and Analysis
AGRCOMM 3130 Oral Expression in Agriculture
BIOTECH 2218T General and Applied Entomology
BUSTEC 1202T Software Applications

HORTTEC 2280T Principles of Weed Science
HORTTEC 2290T Plant Diseases of Ornamentals and Turf

Course descriptions begin on page 36.

Facilities
Ohio State ATI owns and operates an 18-hole championship golf facility, Hawk’s Nest at Ohio State ATI, which provides students with the opportunity for practical applied experience with turfgrass management. In addition, the Ohio State ATI campus grounds include sports fields, turfgrass plots and a model golf hole.

Applied learning opportunities
Optional: Students can participate in a turf practicum (supervised, practical experience on campus) which provides an opportunity to apply skills learned in class.

Turfgrass students must also complete an industry internship consisting of 450 hours (based on OSU’s academic calendar) of full-time employment at an approved turfgrass facility.

Other degree options
Students interested in earning a bachelor’s degree may be interested in the Associate of Science program in Horticultural Science.
Associate of Science Degree programs

Agribusiness
The objective of the Agribusiness program is to allow students to complete the first half of a Bachelor of Science in Agriculture, majoring in Agribusiness and Applied Economics or to prepare for employment in agricultural businesses.

Career opportunities
Graduates with a BS in Agribusiness and Applied Economics will find careers in management, finance, marketing, resource management, and community or international development.

Curriculum
The curriculum of the agribusiness program emphasizes the application of business and economic principles to agribusiness; firms that produce, process, distribute, and sell agricultural and natural resource products.

General Education
*AEDECON 2001 Principles of Food and Resource Economics
AGRCOM 3130 Oral Expression in Agriculture
BUSTEC 1201T Exploring Business
*ENGLISH 1110.01 First-Year English Composition

AEDECON 2105 Managerial Records and Analysis
AEDECON 3105 Principles of Agribusiness and Food Supply Chains
BUSTEC 2231T Fundamentals of Marketing
BUSTEC 2241T Small Business Management
BUSTEC 2249T Fundamentals of Business Finance
Major Electives (from approved list)
Electives (courses selected in consultation with advisor)

Course descriptions begin on page 36.

Other degree options
An Associate of Applied Science degree is available in Business Management.
Agricultural Communication

The objective of the Agricultural Communication program is to allow students to complete the first half of a Bachelor of Science in Agriculture, majoring in Agricultural Communication at The Ohio State University.

Career opportunities

Graduates with a Bachelor of Science in Agricultural Communication have many career options. A few of the possibilities include: writers and editors for agricultural or natural resource publications, advertising, marketing, and public relations professionals who work with agribusinesses, commodity or environmental groups, directors of communication for agricultural or natural resource organizations, and on-air broadcasters and reporters for agriculture and natural resource-related radio and television programs.

Curriculum

Agricultural Communication majors must complete a minor in the College of Food, Agricultural, and Environmental Science. Students can start working on their minor at Ohio State ATI. Minor options include: agribusiness, animal science, crop science, equine, horticulture, natural resources, production agriculture, turfgrass, and more. A complete listing can be found at https://students.cfaes.ohio-state.edu/academics/minors

Agricultural Systems Management

The objective of the Agricultural Systems Management program is to allow students to complete the first half of a Bachelor of Science degree in Agriculture, majoring in Agricultural Systems Management.

Career opportunities

Graduates with a BS majoring in Agricultural Systems Management will have specialized in one of three specializations available within the major: Power and Machinery, Soil and Water, or Facilities Management and Planning. Graduates from this major have a wide array of opportunities based on the specialization selected. Employers include equipment manufacturers, farmstead designers, equipment dealerships, seed producers, grain cooperatives, food distributors, production agriculture, and various agriculture facility construction companies.

Curriculum

The curriculum of the Agricultural Systems Management Associate of Science program allows the student to take technical courses for the major along with general education courses required for the Bachelor of Science degree majoring in Agricultural Systems Management.

* A grade of C or better is required to meet graduation requirements.

Course descriptions begin on page 36.

Applied learning opportunities

Students must also complete an industry internship consisting of 300 hours of full-time employment. Internship locations are based upon student field of study or interest.

Other degree options

An Associate of Applied Science degree is available in Crop Management and Soil Conservation. An Associate of Science degree is available in Agronomy and Sustainable Agriculture.
Agriscience Education
The objective of the Agriscience Education program is to allow students to complete the first half of a Bachelor of Science in Agriculture, majoring in Agriscience Education at The Ohio State University.

Career opportunities
Graduates with a Bachelor of Science in Agriscience Education will find careers as educators in schools, extension, and agribusiness.

Curriculum
The curriculum of the Agriscience Education program will focus on the agricultural science/production specialization. There is an additional GPA requirement in the bachelor degree program that must be met following transition to the Columbus campus.

Agronomy
The objective of the agronomy program is to prepare students to complete a Bachelor of Science in Agriculture, majoring in Sustainable Plant Systems with an Agronomy emphasis or for employment in the crop production and agricultural services industry.

Career opportunities
Graduates with a BS in Sustainable Plant Systems: Agronomy may find careers as independent crop producers; professional agricultural consultants; technical representatives for seed, fertilizer, equipment and agrochemical companies; and other related careers.

Curriculum
The agronomy program curriculum provides students with the opportunity to take technical courses in crop production along with general education courses required for the Bachelor of Science degree in Sustainable Plant Systems with an Agronomy emphasis.

General Education

Other degree options
An Associate of Applied Science degree is available in Crop Management and Soil Conservation. An Associate of Science degree is available in Agricultural Systems Management and Sustainable Agriculture.
Animal Sciences
Animal Bioscience Specialization
The objective of the Animal Sciences – Animal Bioscience program is to allow students to complete the first half of a Bachelor of Science degree in Agriculture majoring in Animal Sciences (Animal Bioscience) at The Ohio State University with a focus on academic preparation for professional degrees or graduate work.

The Animal Bioscience Specialization is specifically designed to provide: 1) opportunities for students to receive instruction and experience in multiple animal species, 2) an educational track for students interested in veterinary medicine or graduate school to receive instruction in and experience with large animal production methods, and 3) an opportunity for students interested in food animal medicine to apply to the Veterinary Early Commitment Program offered by the Department of Animal Sciences in conjunction with the College of Veterinary Medicine.

Career opportunities
Graduates with a Bachelor of Science in Animal Sciences will find careers as technical representatives for pharmaceutical, animal health, feed, breeding/genetics, equipment, and other related companies; research or product development technicians; quality assurance, public health, animal welfare, inspection, and laboratory technicians; managers of livestock production units; and others.

Graduates may also apply to veterinary school or other graduate programs for careers in veterinary medicine, veterinary research, public health, toxicology, pharmacology, nutrition, animal welfare, and other specialties.

Curriculum
The curriculum of the Animal Sciences program allows the student to choose one of three specializations: animal biosciences, animal industries, or horse. The Animal Biosciences specialization provides a broader approach to course selection and career goals within the Animal Sciences major as required courses can be selected from various species specific classes and additional opportunities are available for animal, business, and internship elective courses.

General Education

COMLDR 3537 Data Analysis in the Applied Sciences

Electives (from approved list)

Course descriptions begin on page 36.
Animal Sciences
Animal Industries Specialization

The objective of the Animal Sciences – Animal Industries program is to allow students to complete the first half of a Bachelor of Science in Agriculture, majoring in Animal Sciences at The Ohio State University.

Career opportunities
Graduates with a Bachelor of Science in Animal Sciences will find careers as managers of animal production units; technical representatives for feed, equipment, pharmaceutical, breeding/genetics and other related companies; research or product development technicians; and other related employment opportunities. Practical application is emphasized at the Ohio State ATI Grace Drake Learning Laboratory, Krauss Dairy, and the Sheep/Goat Research Center on the Wooster Campus.

Curriculum
The curriculum of the Animal Sciences program allows the student to choose one of three specializations: animal biosciences, animal industries, or horse. Students in the Animal Industries Specialization can select a focus on beef, dairy, small ruminant, or swine species or select a focus that combines multiple animal species.

* A grade of C or higher is needed to meet graduation requirements.

Course descriptions begin on page 36.

Other degree options
An Associate of Applied Science degree is available in Dairy Cattle Production and Management and Livestock Production and Management.
Animal Sciences
Horse Specialization
An Associate of Science degree in Animal Sciences with a Horse Specialization provides the student with a solid foundation in general studies and science courses to continue their education for a Bachelor of Science degree in Animal Science. An abundance of equine specific courses provides applicable skills and knowledge to those seeking professional employment in many areas of the equine industry.

Career opportunities
Graduates in Animal Sciences – Horse specialization are prepared for careers in horse breeding, management, and equine related industries.

Curriculum
The curriculum of the Animal Sciences – Horse program allows students to complete an Associate of Science degree which transitions easily into several bachelor’s degree programs offered in the College of Food, Agricultural, and Environmental Sciences at The Ohio State University.

General Education
* ADECON 2001 Principles of Food and Resource Economics

   ANMLTEC 3161T Applied Equine Reproductive Mgt.
   ANMLTEC 3171T Horse Health and Disease

• The student must earn a grade of “C” or higher in these courses to receive an Associate of Science Degree in Animal Science.

Course descriptions begin on page 36.

Other degree options
An Associate of Applied Science degree is available in Horse Production and Management.
Biochemical Sciences
The objective of the Biochemical Sciences program is to allow students to complete the first half of a Bachelor of Science degree, majoring in Biology or Food Science, and obtain the prerequisites to apply for veterinary school.

Career opportunities
Graduates with an Associate of Science in Biochemical Sciences can find careers as food science technicians, quality assurance technicians, or research/laboratory technicians (plant, animal and environmental).

Graduates with a Bachelor of Science in Food Science can become product development scientists, quality assurance supervisors, plant managers, food processing operations supervisors, food microbiologists, technical sales managers, flavor chemists, analytical laboratory directors, food research scientists, or food biotechnologists.

Graduates with a Bachelor of Science in Biology can find careers in communications, business (pharmaceutical, sales, technical), teaching, scientific or biomedical research, scientific or technical writing, product development, forensics, and health professions (medical school, dental school, etc.).

Graduates with a Bachelor of Science in Animal Sciences can find careers as technical representatives, research or product development technicians, or managers of livestock production units. Graduates who further their education in a veterinary medicine program become practicing or research veterinarians.

Curriculum
Biochemical Sciences majors consist of a variety of general courses designed to give students a foundation in the natural sciences. Areas of study include: biology, chemistry, microbiology, mathematics and data analysis.

Community Leadership
The objective of the Community Leadership program is for students to complete the first half of a Bachelor of Science in Agriculture, majoring in the Community Leadership program at The Ohio State University.

Career opportunities
The Community Leadership major is designed to equip students with knowledge and skills needed to exert a leadership influence in a future context. Graduates in the Community and Extension Education specialization as part of the Community Leadership major are prepared to pursue careers as After-School Educators, Extension Professionals, Non-Profit Specialists, Volunteer Trainers, Youth Leaders, and Youth Outreach Coordinators.

Curriculum
The curriculum of the Community Leadership program will focus on a variety of courses designed to give students a broad understanding of community issues and the preparation to continue in the Bachelor of Science degree in Community Leadership at The Ohio State University.

Construction Systems Management

The objective of the Construction Systems Management program is to allow students to complete the first half of a Bachelor of Science in Construction Systems Management.

Career opportunities

Graduates with a Bachelor of Science in Construction Systems Management may be employed by specialty or general contractors, designers, land developers, or may secure a position in one of the various roles that support project construction. These individuals could be supplying materials, performing testing and inspections on a jobsite, or performing construction surveying. The Bachelor of Science in Construction Systems Management provides the graduate maximum opportunity in the commercial, heavy highway/infrastructure, residential, or agricultural sectors of the construction industry.

Curriculum

The curriculum of the Construction Systems Management Associate of Science program allows the student to complete both technical construction management courses along with general education courses required for the Bachelor of Science degree in Construction Systems Management.

General Education

*AEDECON 2001 Principles of Food and Resource Economics
AGRCOMM 3130 Oral Expression in Agriculture
CRPSTOS 2300T Introduction to Soil Science
CRPSTOS 2301T Introduction to Soil Science Lab
*ENGLISH 1110.01 First-Year English Composition
ENGTECH 1201.02T Exploring Construction Careers and Industry
GENED 1201 GE Launch Seminar

ENGTECH 2440T Site Development and Surveying
ENGTECH 2600T Construction Safety and Health

* A grade of C or higher required to meet graduation requirements.

Course descriptions begin on page 36.

Other degree options

An Associate of Applied Science degree is available in Construction Management.
Environment and Natural Resources

The objective of the Environment and Natural Resources Science program is to allow students to complete the first half of a Bachelor of Science degree in the School of Environment and Natural Resources at The Ohio State University. Students choosing our Environmental Science specialization can transition into either Environmental Science, or Forestry, Fisheries and Wildlife; while students in our Natural Resource Management specialization can transition into Natural Resource Management, or Environmental Policy and Decision Making.

Career opportunities

Graduates with a Bachelor of Science degree from the School of Environment and Natural Resources will find careers as environmental and ecosystems scientists and consultants, land use management planners and specialists, wildlife and fisheries biologists, environmental health and safety managers, wetland and soil scientists, foresters, environmental policy analysts, outdoor recreation and park administrators, and environmental educators, naturalists, and communicators.

Curriculum

The curriculum of the Environment and Natural Resources program consists of a variety of technical and general courses designed to give students a broad understanding of environmental and natural resources issues.

General Education

*AEDECON 2001 Principles of Food and Resource Economics
AGRCOM 3130 Oral Expression in Agriculture
*CHEM 1110 (NTR) Principles of General Chemistry
or 1210 (EVS) Elementary Chemistry
*ENGLISH 1110.01 First-Year English Composition

Food Business Management

The objective of the Food Business Management program is to allow students to complete the first half of a Bachelor of Science in Agriculture, majoring in Food Business Management at The Ohio State University, or to prepare for employment in the food and agricultural industry.

Career opportunities

Graduates with a Bachelor of Science in Food Business Management will be prepared for a variety of careers, from commodity purchasing to food product sales and management. From purple ketchup to “smart” water to the growing demand for organic products, new food developments make this a challenging and fast-paced industry.

Curriculum

Ohio State ATI’s Food Business Management program provides a balanced curriculum consisting of technical and general coursework, as well as practical experience in business and food science classes.

General Education

*AEDECON 2001  Principles of Food and Resource Economics
AGRCOMM 3130  Oral Expression in Agriculture
*BIOLOGY 1101  Introductory Biology or 1113.01 Bio Sci: Energy Transfer & Dev.
BUSTEC 1201T  Exploring Business
CHEM 1110 or 1210  Elementary Chemistry
*ENGLISH 1110.01  General Chemistry I
GENED 1201  First-Year English Composition
GENSTDS 1201.01T  GE Launch Seminar
*MATH 1148  College Orientation

FDSCTE 4410  Hazard Analysis and Critical Control Points (HACCP)
FDSCTE 4600  Food Composition and Function
MICRBIO 4000.01  Basic and Practical Microbiology
Electives (from an approved list)

Course descriptions begin on page 36.
The objective of the Horticultural Science program is to allow students to complete the first half of a Bachelor of Science in Sustainable Plant Systems, with a focus in Agroecology, Horticulture, Plant Biosciences, or Turfgrass Science.

**Career opportunities**
Graduates with a horticulture specialization will find careers in design, sales, management, grounds management, greenhouse production, vegetable production or public gardens. The turfgrass science specialization leads to careers in golf course superintendents, athletic field managers, lawn care specialists, or sod producers. The agroecology specialization leads to careers in soil science, extension specialists, and the plant biosciences specialization concentrates on plant research, genetics, physiology and breeding.

**Curriculum**
The curriculum of the Horticultural Science program consists of a combination of general and technical courses. Selection of courses from a group of transferable electives will allow students to individualize the curriculum.

**General Education**
- AEDECON 2001 Principles of Food and Resource Economics
- AGRCOMM 3130 Oral Expression in Agriculture
- *BIOLOGY 1113.01 Bio Sci: Energy Transfer & Dev.
- CRPSOIL 2300T Introduction to Soil Science
- *ENGLISH 1110.01 First-Year English Composition
- GENED 1201 GE Launch Seminar
- GENSTDS 1201.01T College Orientation
- HORTTEC 1201T Exploring Horticulture
- *MATH 1148 College Algebra
- Literary, Visual and Performing Arts
- Historical and Cultural Studies
- Race, Ethnic and Gender Diversity

* One possible course from approved GE list or major requirement that has multiple options

**Major courses**
- CRPSOIL 2301T Introduction to Soil Science Lab
- HCS 2202 Form and Function in Cultivated Plants
- HCS 2204 Ecology of Managed Plant Systems
- HCS 2205 Ecology of Managed Plant Systems Lab
- Electives (from an approved list)

The courses below will meet requirements for the bachelor degree program in Sustainable Plant Systems in these focused areas.

**Agroecology:**
- BIOLOGY 1114.01 Bio Sci: Form, Function, Diversity and Ecology
- CHEM 1110 Elementary Chemistry
- or 1210 General Chemistry I

**Horticulture:**
- BIOTECH 2218T General and Applied Entomology
- HORTTEC 2110T Plant Materials I
- HORTTEC 2120T Plant Materials II

**Plant Biosciences:**
- BIOLOGY 1114.01 Bio Sci: Form, Function, Diversity and Ecology
- CHEM 1210 General Chemistry I
- CHEM 1220 General Chemistry II
- CHEM 2510 Organic Chemistry I

**Turfgrass Science:**
- CHEM 1110 Elementary Chemistry
- or 1210 General Chemistry I
- HCS 2270 Historical Perspectives on Golf Course Design and Management
- HORTTEC 2230T Fundamentals of Turfgrass Science and Management

Course descriptions begin on page 36.

**Other degree options**
Associate of Applied Science degrees are available in Greenhouse and Nursery Management, Landscape Horticulture, and Turfgrass Management.
Sustainable Agriculture

Students majoring in sustainable agriculture will take a broad range of courses in the soil, crop, animal, and environmental sciences, while also gaining an understanding of key economic and business principles. The objective of the Sustainable Agriculture program is to allow students to complete a 2-year Associate of Science degree that makes them competitive in the agricultural job market. Upon completion of this degree, students may also continue their studies in Columbus by transferring into the Sustainable Agriculture Bachelor of Science program.

Career opportunities
Graduates typically find employment in a wide range of crop, livestock, and dairy enterprises. Graduates may also pursue careers as farm and natural resource managers.

Curriculum
Sustainable Agriculture majors enroll in general education and technical courses developed to enrich student’s understanding of crops, soils, animals, and marketing in the agricultural system.

General Education
- *AEDECON 2001 Principles of Food and Resource Economics
- AGRCOMM 3130 Oral Expression in Agriculture
- BIOLOGY 1113.01 Bio Sci. Energy Transfer & Dev.
- CHEM 1110 or 1210 General Chemistry 1
- CRPSOIL 1201T Exploring Agronomy, Sustainable Agriculture, and Crop Mgmt. and Soil Conservation
- *ENGLISH 1110.01 First-Year English Composition
- GENED 1201 GE Launch Seminar
- GENSTDS 1201.01T College Orientation
- *MATH 1130 or 1148 College Algebra for Business
- or 1150 Precalculus

Literary, Visual and Performing Arts
Historical and Cultural Studies
Race, Ethnic and Gender Diversity

* One possible course from approved GE list or major requirement that has multiple options

Major courses
- BIOTECH 2218T General and Applied Entomology
- BUSTEC 2241T Small Business Management
- COMLDR 3537 Data Analysis in the Applied Sciences
- CRPSOIL 2210T Sustainable Agriculture Methods
- CRPSOIL 2300T Introduction to Soil Science
- CRPSOIL 2301T Introduction to Soil Science Laboratory
- ENR 3100 Introduction to Sustainable Agriculture
- HCS 2202 Form and Function of Cultivated Plants
- or 2204 and 2205 Ecology of Managed Plants Systems and EMPS Lab

Electives (selected in consultation with advisor)

Course descriptions begin on page 36.

Other degree options
An Associate of Applied Science degree is available in Crop Management and Soil Conservation. An Associate of Science degree is available in Agricultural Systems Management and Agronomy.
1 + 3 Program

Professional Golf Management

The professional golf management (PGM) program is a four-year curriculum for aspiring PGA professionals. Students in the program are required to provide proof of an 18-hole golf handicap of 10 or better. The objective of the PGM program at Ohio State ATI is to allow students to complete the first year of the Bachelor of Science degree, majoring in Professional Golf Management. After one year, students transition to the Columbus campus to complete the remainder of the program.

Career opportunities

Graduates with a Bachelor of Science in Professional Golf Management have diverse career opportunities, including Director of Golf, Head Golf Professional, Director of Instruction, Tournament Director, golf manufacturing sales representative, golf association administrator, golf club repair and golf journalist, as well as positions in golf club research and development, general management, and golf retailing.

Curriculum

The PGM curriculum emphasizes the knowledge and skills necessary for success in the golf industry through extensive classroom studies, internship experience, and player development. In addition to business, finance, marketing, turfgrass science and hospitality management classes, the curriculum encompasses specialty classes in swing analysis and swing concepts, tournament operations, golf club repair, club fitting, retail merchandising, golf course design, and coaching golf.

Facilities

Ohio State ATI owns and operates an 18-hole championship golf facility, Hawk’s Nest at Ohio State ATI, which provides special playing privileges to PGM students in addition to the practical applied learning experiences students receive within the clubhouse and on the grounds. In addition, the Ohio State ATI campus grounds include a model golf hole for convenient practice between classes.

Applied learning opportunities

All students majoring in professional golf management are required to complete five internships prior to graduation. Students receive a total of 5 academic credit hours for these work experiences.

Other degree options

Students interested in the management and maintenance of golf facilities may be interested in the Associate of Applied Science in Turfgrass Management or the Associate of Science in Horticultural Science.
Certificate Programs

Hydraulic Service and Repair
The increasing complexity of equipment and a shortage of qualified maintenance personnel have created an immediate demand for skilled technicians with the ability to maintain, repair and rebuild fluid power components. This Certificate of Competency will prepare individuals with the skills and knowledge to get started in the industry. Students may choose to pursue the Associate of Applied Science degree at a later time.

Career opportunities
Because rebuilding is often more cost effective and quicker than buying new components, many large industrial users and manufacturers seek individuals with the skills to repair or rebuild pumps, valves, motors, and cylinders.

Graduates can enter the work force as a system assembler, component rebuilder, or test technician. Employment opportunities also exist with firms that specialize in the repair or rebuilding of hydraulic components and industrial machinery.

Curriculum
Areas of study include hydraulic principles of operation, component technology, fluid conveyance, hydraulic component rebuilding, electrical and electronics, and welding metal fabrication.

General Education
- BUSTEC 1202T Software Applications
- ENGTECH 1201.01T Exploring Engineering Technologies
- ENGTECH 2322T Basic Electricity and Electronics
- ENGLISH 1110.01 First-Year English Composition
- AGRCOMM 3130 Oral Expression in Agriculture
- GENSTDS 1201.01T College Orientation
- Free Elective

Students must be eligible to enroll in GENMATH 1141T or 1145T to complete the certificate requirements. If not eligible, students will need to successfully complete remedial mathematics courses depending on math placement level.

Technical Studies
- ENGTECH 2214T Fundamentals of Fluid Power and Components
- ENGTECH 2221T Component Rebuilding
- ENGTECH 2224T Fluids, Filtration, and Fluid Conveyance
- ENGTECH 2240T Welding Technology
- ENGTECH 2312T Engineering Technology Fundamentals
- ENGTECH 2336T Methods of Power Transmission
- BUSTEC elective (from approved list)
- ENGTECH elective (from approved list)

Turfgrass Equipment Manager
The Turfgrass Equipment Manager Certificate of Competency program is designed to prepare aspiring turf care specialists with the applied technical skills needed in the field. These skills include the maintenance, adjustment, and repair of commercial turf equipment as well as management of turf care facilities. This program is one of a very few of its type in the country and is attracting the attention of leaders in the turf equipment and sports turf industries, where the demand for qualified employees continues to expand.

Career opportunities
Graduates work with equipment dealers, wholesalers, manufacturers, lawn care companies, landscape firms, nurseries, golf courses, parks, and professional athletic enterprises. Fulfillment of this certificate brings with it a wide spectrum of employment opportunities such as equipment service manager at a golf course, country club, or park, OEM sales representative, or service technician with a manufacturer, wholesaler, or dealer.

Curriculum
Areas of study include engine principles of operation, diesel engine service and repair, power transmission, hydraulics, electrical and electronics, welding/metal fabrication, reel mower maintenance, and turfgrass management.

General Education
AGRCOMM 3130 Oral Expression in Agriculture
BUSTEC 1202T Software Applications
ENGETECH 2322T Basic Electricity and Electronics
GENBIOL 1250T General Botany with Applications
GENSTDS 1201.01T College Orientation
HORTTEC 1201T Exploring Horticulture

Students must be eligible to enroll in GENMATH 1141T or 1145T to complete the certificate requirements. If not eligible, students will need to successfully complete remedial mathematics courses depending on math placement level.

Course offerings

The following pages describe courses offered by the Agricultural Technical Institute. The most current information regarding new courses, changes to existing courses, credit hours, sections, days, times, buildings, rooms, and instructors may be found in the semester Master Schedule of Classes.

Explanation of a course listing

A Course number: 3140T
A dagger (†) denotes that the course will not be offered this year.

B Course title: Animal Anatomy and Physiology

C Instructional level: U—Undergraduate

Credit hours: 4

A  Course number: 3140T
An introductory study of the structure and functions of the various organ systems of domestic animals.

Prerequisite(s): GenBiol 1200T or Biology 1111 (113) recommended. Not open to students with credit for 221T. This course is available for EM credit.

B  Course title: Animal Anatomy and Physiology

Prerequisite(s): GenBiol 1200T or Biology 1111 (113) recommended. The course number(s) or other information indicates the preparation or classification required to enroll in the course. If no department name is listed, the number(s) refers to the specific course within the same department.

Repeatability clause: Indicates the maximum number of hours a course may be repeated for credit.

General information clause: Gives general information about the course.

Animal Sciences Technology

(ANMLTEC)

1201.01T Exploring Equine Careers and Industry  U 0.5
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.

Au. 1 cl.

1201.02T Exploring Livestock Careers and Industry  U 0.5
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.

Au. 1 cl.

1201.07T Exploring Dairy Careers and Industry  U 0.5
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.

Au. 1 cl.

1201.08T Exploring Animal Health Careers  U 0.5
Promotes an overview of the unique requirements of the Animal Health specialization, promotes student success in college, and explores personal and career interests, needs, goals, in the field of Animal Health.

Au. 1 cl.

2189.01T Horse Practicum  U 1
Practical experience in supervised equine laboratories with emphasis on developing and improving competencies related to classroom objectives and horse industry standards.

Su, Au, Sp. Arr. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs or 4 completions.

2189.07T Practicum in Dairy Cattle Production  U 1-2
Supervised practical experience in dairy cattle production at the Ohio State ATI dairy farm with emphasis on developing and improving dairy cattle production skills and competencies.

Su, Au, Sp. Arr. Prereq: Permission of instructor. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs or 4 completions.

2190.01T Leadership in Equine Operations Management  U 1
Practical, supervised leadership experience in equine facility management with emphasis on herd and facility operations and personnel supervision.

Au. Arr. Prereq: 2189.01T (289.04T) with a grade of C or above; 2201T (211T); Completion of tractor/mobile equipment safety certification process. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 2 cr hrs.

2193T Individual Studies  U 1-3
Designed to give an individual student an opportunity to pursue special studies not offered in other courses.

Au, Sp. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

2194T Group Studies  U 1-3
Designed to give groups of students an opportunity to pursue special studies not offered in other courses.

Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

2200.02T Introduction to Animal Sciences Laboratory  U 1
Laboratory application of basic animal husbandry practices in the various livestock and related industries.

Au, Sp. 1 2-hr lab. Prereq: or concur: 2200T or AnimSci 2200.01. This course is available for EM credit.

2201T Introduction to Horse Science  U 3
Fundamental survey of the development of domestic horses and breeds, terminology, behavior, uses, conformation, management and safe horse handling.

Au. 2 cl, 1 2-hr lab. Prereq: Not open to students with credit for 211T. This course is available for EM credit.

2202T Introduction to Beef and Small Ruminant Production  U 3
Overview of beef cattle, sheep, goat, and other small ruminant species industries with regard to production and marketing; focus on ruminant livestock needs and the opportunities involved in their production.

Au. 2 cl, 1 rec, 1 2-hr lab. Prereq: Not open to students with credit for 222.01T. This course is available for EM credit.

2510.02T Food Animal Resource Management I – Beef  U 1
Supervised practical experience in beef production and management at the Grace Drake Learning Laboratory with emphasis on developing and improving beef production and management skills and competency.

Au. Sp. 1 rec, 1 3-hr lab. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.

2510.03T Food Animal Resource Management I – Swine  U 1
Supervised practical experience in swine production and management at the Grace Drake Learning Laboratory with emphasis on developing and improving swine production and management skills and competency.

Au. Sp. 1 rec, 1 3-hr lab. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.

2510.04T Food Animal Resource Management I – Small Ruminants  U 1
Supervised practical experience in small ruminant production and management at the Grace Drake Learning Laboratory with emphasis on developing and improving small ruminant production and management skills and competency.

Au. Sp. 1 rec, 1 3-hr lab. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.

Course offerings are subject to change.
2582.02T Food Animal Resource Management II – Beef    U 1
Supervised practical experience in beef production and management at the Grace Drake Learning Laboratory with emphasis on developing and improving leadership characteristics, beef production and management skills and competency. Au, Sp. 1 rec, 1 3-hr lab. Prereq: 2510.02T. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.

2582.03T Food Animal Resource Management II – Swine    U 1
Supervised practical experience in swine production and management at the Grace Drake Learning Laboratory with emphasis on developing and improving leadership characteristics, swine production and management skills and competency. Au, Sp. 1 rec, 1 3-hr lab. Prereq: 2510.03T. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.

2582.04T Food Animal Resource Management II – Small Ruminants    U 1
Supervised practical experience in small ruminant production and management at the Grace Drake Learning Laboratory with emphasis on developing and improving leadership characteristics, small ruminant production and management skills and competency. Au, Sp. 1 rec, 1 3-hr lab. Prereq: 2510.04T. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.

2603T Swine Production and Management I    U 3
A study of the basic principles of production and management for contemporary commercial swine production enterprises. 1 to 3 day field trips, including weekends, may be required. Students will pay costs associated with field trips (lodging, transportation, meals, etc.) above Ohio State tuition and fees. Au. 2 cl, 1 rec, 1 2-hr lab. Prereq: Not open to students with credit for 2202T. This course is available for EM credit.

2707T Dairy Cattle Presentation    U 1
Principles and skills practiced in fitting, presenting, and merchandising dairy cattle. Field trips, including weekends, may be required. Students will pay costs associated with field trips (lodging, transportation, meals, etc.) above Ohio State tuition and fees. Sp. 1 rec, 1 3-hr lab. Prereq: 2582.02T. This course is available for EM credit.

2787T Applied Dairy Herd Practices and Management    U 1
Experience in applying, directing, and evaluating dairy herd management procedures and practices at the Ohio State ATI dairy farm. Au, Sp. Arr. Prereq: Soph standing; permission of instructor; completion of the Equipment Training and Certification process and a driver background check required. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 3 cr hrs.

2797T Dairy Industry Seminar and Experience    U 1
Current trends, issues, technology, and developments in the dairy industry; emphasis on developing lifelong learning skills through evaluation of science/trade journals, participation in professional meetings, and visits to innovative businesses. 1 to 3 day field trips, including weekends, may be required. Students pay field trip costs of lodging, meals, etc. above Ohio State tuition and fees. Sp. Arr. Prereq: Permission of instructor. Prereq or concur: English 1110.01 or 1110.03. Repeatable to a maximum of 3 cr hrs or 3 completions. This course is graded S/U.

2800T Basic Horsemanship    U 2
Study of equine behavior, applied safe horse handling techniques, and an introduction into basic training and handling methodologies. Au. 2 2-hr labs. Prereq or concur: 2210T. Not open to students with credit for 2801T or 2811T.

2801T Horsemanship and Equitation    U 3
Intermediate course in equitation with emphasis on continued development of balanced seat riding skills that incorporate natural horsemanship concepts into mounted work. Students should have riding proficiency at walk, trot, and canter. Au. 1 cl, 2 rec, 2 2-hr labs. Prereq: Permission of instructor. Concur: 2189.01T or 2190.01T. Not open to students with credit for 213T. Repeatable to a maximum of 6 cr hrs. This course is available for EM credit.

2811T Schooling and Training the Riding Horse    U 3
Applied techniques of schooling and training riding horses with emphasis on producing supple, willing and knowledgeable mounts. Au. 2 cl, 3 1-hr labs. Prereq: 2210T (211T), 2801T (267T), permission of instructor. Concur: 2189.01T or 2190.01T. Not open to students with credit for 2801T.

3101.01T Equine Marketing    U 1
Students will gain experience in sale prepping horses and develop an understanding of equine sales industry practices. Students will develop promotional materials including ads and videos. AU. 2 2-hr labs. Prereq: 2210T and 2189.01T.

3101.02T Equine Facility Management    U 3
This course explores equine facility design, management, and business planning. Students will locate and use resources to develop a business plan and manage an event. The event is typically on a Saturday. Sp. 2 cl, 1 2-hr lab. Prereq: 2210T and 2189.01T. This course is available for EM credit.

3131T Equine Feeding and Nutrition    U 3
A study of the nutritional needs of equids and of the principles and practices involved in providing balanced rations to different nutritional classes of equids. Au. 2 cl, 1 3-hr lab. Prereq: 2201T or AnimSci 2200.01; GenMath 1040T or Math 1075 or Math placement level R or higher. This course is available for EM credit.

3132T Ruminant Feeds and Feeding    U 3
Principles of beef cattle and small ruminant nutrient requirements and feeding management with emphasis on the critical evaluation and formulation of rations in current management situations. Sp. 2 cl, 1 2-hr lab. Prereq: 2202T or AnimSci 2200.01; GenMath 1040T or Math 1075 or Math placement level R or higher. This course is available for EM credit.

3133T Practical Swine Feeding    U 3
A study of the basic nutritional requirements and feeding management of swine, with an emphasis on evaluation and formulation of common feedstuffs and ration balancing. Au. 3 cl. Prereq: 2603T or AnimSci 2200.01; GenMath 1040T or Math 1075 or Math placement level R or higher. This course is available for EM credit.

3137T Dairy Cattle Feeding Management    U 3
Principles of dairy cattle feeding management with emphasis on the critical evaluation and formulation of rations in current management situations. Sp. 2 cl, 1 rec, 1 3-hr lab. Prereq: GenMath 1040T or Math 1075 or Math placement level R or higher. This course is available for EM credit.

3140T Animal Anatomy and Physiology    U 4
This subject will introduce the principles of animal body structure (anatomy) and function (physiology) as relevant for students of animal sciences and technology. This includes an introduction to anatomical nomenclature, cells and tissues and body systems. Au, Sp. 3 cl, 1 2-hr lab. Prereq or concur: GenBiol 1200T or Biology 1113 or 1114; or permission of instructor. This course is available for EM credit.

3150T Livestock Genetic Improvement    U 3
Principles of inheritance and the genetic improvement of livestock through cellular, qualitative, and population genetics; emphasizing breeding values, selection, and mating systems. Sp. 3 cl, 2 rec. Prereq: GenBiol 1200T or Biology 1113; GenMath 1040T or Math 1050 or Math placement level R or higher. This course is available for EM credit.

3151T Horse Breeding and Selection    U 3
Principles of equine breeding management with emphasis on applied equine reproductive physiology, breeding methods, breeding stock management and basic genetics and selection. Sp. 2 cl, 1 2-hr lab. Prereq: 2210T (211T). Recommended prereq: 3140T (221T) or GenBiol 1200T (120T). Not open to students with credit for 280T. This course is available for EM credit.

Course offerings are subject to change.
3157T Dairy Cattle Genetic Improvement U 3
Principles of inheritance and the genetic improvement of dairy cattle through cellular, qualitative, and population genetics; emphasizing breeding values, selection, and mating systems.
Sp. 3 cl, 2 rec. Prereq: GenBiol 1200T or Biology 1113; GenMath 1040T or Math 1050 or Math placement level R or higher. This course is available for EM credit.

3161T Applied Equine Reproductive Management U 2
Advanced course in equine reproductive management with emphasis on understanding and improving equine infertility; applications of current research; and development of technical skills.
Sp. 1 cl, 1 3-hr lab. Prereq: 2201T (211T). Prereq or concur: 3151T (269T). Concur: 2189.01T or 2190.01T. Not open to students with credit for 269T.

3167T Dairy Cattle Milking and Reproductive Management U 4
A study of recommended dairy cattle milking and reproductive management practices, based on the anatomy and physiology of the systems.
Au. 3 cl, 1 rec, 1 3-hr lab. Prereq: Not open to students with credit for 201T and 203T. This course is available for EM credit.

3170T Principles of Livestock Health U 3
A basic introduction to the relationship between animal health and performance. Topics include: immunology, sanitation, disease etiology, and disease prevention, symptoms, and treatment.
Sp. 3 cl. Prereq: 2202T or 2603T or AnimSci 2200.01. This course is available for EM credit.

3171T Horse Health and Disease U 3
Study of equine disease, lameness and emergency first aid with emphasis on preventative health care and the manager's role with the veterinary professional.
Sp. 2 cl, 1 2-hr lab. Prereq: 2201T or AnimSci 2200.01. This course is available for EM credit.

3177T Dairy Cattle Health Management U 4
A study of immunology and dairy cattle health management, including disease prevention, identification, and treatment of common diseases influencing the performance of dairy cattle.
Sp. 3 cl, 1 3-hr lab. Prereq: Not open to students with credit for 201T, 203T, and 252T. This course is available for EM credit.

3191.01T Equine Industry Internship Experience U 1-3
Employment in the equine industry structured to provide varied occupational experiences: supervised by an industry employer and coordinated by faculty; comprehensive report required.
Su, Au. Sp. Arr. Prereq: 2189.01T (289.04T), 2201T (211T), CPHR 2.0 or above, Soph standing, and permission of instructor. Not open to students with credit for 201T. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs or 3 completions.

3191.02T Beef Industry Internship U 2-3
Employment in the beef industry structured to provide varied occupational experiences: supervised by an industry employer and coordinated by faculty; comprehensive report required.
Su, Au. Sp. Arr. Prereq: 2202T, 2510.02T; CPHR 2.0 or above; permission of instructor. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 6 cr hrs or 2 completions.

3191.03T Swine Industry Internship U 2-3
Employment in swine industry structured to provide varied occupational experiences: supervised by an industry employer and coordinated by faculty; written comprehensive report required.
Su, Au. Sp. Arr. Prereq: 2603T, 2510.03T; CPHR 2.0 or above; permission of instructor. Not open to students with credit for 201T. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 6 cr hrs or 3 completions.

3191.04T Small Ruminant Industry Internship U 2-3
Employment in a small ruminant industry structured to provide varied occupational experiences: supervised by an industry employer and coordinated by faculty; comprehensive report required.
Su, Au. Sp. Arr. Prereq: 2202T, 2510.04T; CPHR 2.0 or above; permission of instructor. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 6 cr hrs or 2 completions.

3191.07T Dairy Industry Internship U 2-3
Employment in the dairy industry structured to provide varied occupational experiences; supervised by an industry employer and coordinated by faculty; comprehensive report required.
Su, Au. Sp. Arr. Prereq: 3167T (201T and 203T), 3207T (202T), 3177T (220T), CPHR 2.0 or above; permission of instructor. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 6 cr hrs or 3 completions.

3200T Livestock Selection and Evaluation U 2
Principles of live animal selection and carcass evaluation of livestock.
Au. 2 rec, 2 2-hr labs. Prereq: 2202T or 2603T or 3140T or AnimSci 2200.01.

3201T Horse Judging and Evaluation U 2
Comparative evaluation of horse conformation by breed, assessment of performance in a variety of performance disciplines; development of tools for assessing and placing show horses.
Su. 1 cl, 1 3-hr lab. Prereq: Not open to students with credit for 212T. This course is available for EM credit.

3207T Dairy Cattle Evaluation and Herd Records U 2
Comparative evaluation of dairy cattle conformation and introduction to herd performance records; emphasis on breed characteristics, functional type, lifetime profitability, and record data collection, analysis, and use.
Au. 2-3 hrs labs. Prereq: Not open to students with credit for 201T and 202T. This course is available for EM credit.

3402T Beef Production and Management U 4
The application of science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of beef cattle in breeding and feeding production programs.

3403T Swine Production and Management II U 4
An advanced study of the principles of managing a commercial swine enterprise. Coordination of production programs, evaluating economic performance, and a survey of contemporary swine housing and equipment options. 1 to 3 day field trips, including weekends, may be required. Students will pay costs associated with field trips (lodging, transportation, meals, etc.) above Ohio State tuition and fees.
Sp. 3 cl, 1 2-hr lab. Prereq: 2202T and 2510.02T. Recommended prereq: 2582.02T, 3130T, 3132T, 3140T, 3150T, and 3170T.

3404T Small Ruminant Production and Management U 4
The application of science and basic principles of nutrition, genetics, physiology, and marketing to the production and management of sheep, goats, and other small ruminants. 1 to 3 day field trips, including weekends, may be required. Students will pay costs associated with field trips (lodging, transportation, meals, etc.) above Ohio State tuition and fees.
Sp. 3 cl, 1 2-hr lab. Prereq: 2202T and 2510.04T. Recommended prereq: 2582.04T, 3130T, 3132T, 3140T, 3150T, and 3170T.

3407T Dairy Cattle Facilities, Environment, & Equipment U 3
Design and management of dairy cattle facilities, environment, and associated equipment; emphasizing milking equipment and parlors, animal housing, environmental control, waste management, feeding systems, and utilities. 1 to 3 day field trips, including weekends, may be required. Students pay costs associated with field trips (lodging, transportation, meals, etc.) above Ohio State tuition & fees.
Au. 2 cl, 2 rec, 1 3-hr lab. Prereq: GenMath 1040T or Math 1050 or Math placement level R or higher. Prereq or concur: 3167T. This course is available for EM credit.

3800T Principles of Farm Business Management U 4
A study of economic and management principles involved in planning, organizing, operating, and administering a farm business; emphasis placed on developing a business plan and problem solving.
Sp. 3 cl, 1 rec, 1 2-hr lab. Prereq: AEDEcon 2105 (BusTec 101T or 102T). Prereq or concur: BusTec 1151T (151T) or AEDEcon 2001 (200). Not open to students with credit for BusTec 240T. This course is available for EM credit. Cross-listed in CrpSoil.

Course offerings are subject to change.
A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 6 cr hrs. Sp. 2 cl, 1 rec, 2-2 hr lab. Prereq: AEDEcon 2001 or BusTec 1151T; Soph standing; minimum of 10 cr hrs in AnmlTec. This course is available for EM credit.

Biotechnology (BIOTECH)

1201T Exploring Biochemical Sciences and Biotechnology U 0.5 Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success. Au. 1 cl.

2193T Individual Studies U 1-3 Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

2194T Group Studies U 3 Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 6 cr hrs.

218T General and Applied Entomology U 3 Classification, identification, life cycles, external/internal structures, and functions of insects; common insect pests and their damage; methods of control and their applications. Au, Sp. 2 cl, 1-3 hr lab. Prereq: Not open to students with credit for 218T or LabBioSc 218T. This course is available for EM credit. Course fee: $50

Business Technology (BUSTEC)

†1151T General Economics U 3 Study of macro and micro-economic principles applicable to business, agricultural and personal financial decision making. Prereq or concurr: GenMath 1040T or Math 1050 or Math placement level R or higher. Not open to students with credit for AEDEcon 2001. This course is available for EM credit.

1201T Exploring Business U 0.5 Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success. Au. 1 cl.

1202T Software Applications U 1 An overview of basic computer skills and study of the features and capabilities of presentations, word processing, spreadsheet and database software as decision management aids. Au, Sp. 1 2-hr lab. Prereq: Not open to students with credit for 202T. This course is available for EM credit.

2191T Business Internship U 3 Experience of employment in a business to provide varied occupational experience, supervised by an employer, and coordinated by faculty. Su, Au. Sp. Arr. Prereq: GPA 2.00 or above, and permission of instructor. Not open to students with credit for 290.02T or 290.03T. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 6 cr hrs.

2193T Individual Studies U 1-3 Designed to give an individual student an opportunity to pursue special studies not offered in other courses. Au, Sp. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

2194T Group Studies U 1-3 Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cl hrs or 10 completions.

2207T Problem Solving with Spreadsheets and Databases U 2 A problem-solving approach to managing typical business scenarios utilizing spreadsheets and databases. Sp. 1 cl, 1-2 hr lab. Prereq: 1202T (202T). Not open to students with credit for 204T and 205T. This course is available for EM credit.

2231T Fundamentals of Marketing U 3 A survey of the field of marketing including functions, policies, problems, structure, strategies, and opportunities. Sp. 3 cl. Prereq or concurr: 1151T (151T) or AEDEcon 2001 (200). Not open to students with credit for 231T. This course is available for EM credit.

2232T Personal Selling U 3 A study of the basic principles and concepts of personal selling with emphasis on practical application and personal interaction. Au, Sp. 3 cl. Prereq: Not open to students with credit for 2232T. This course is available for EM credit.

2240T Introduction to Project Management U 3 An introduction to project management concepts and techniques focusing on how to initiate, plan, manage, control, and close a project. Au. 2 cl, 1-2 hr lab. This course is available for EM credit.

2241T Small Business Management U 3 A general study of the field of small business focusing on policies, strategies, organization, operation, and problems associated with the operation of an entrepreneurial enterprise. Au, Sp. 2 cl, 1-2 hr lab. Prereq: 1151T or AEDEcon 2001. Recommended prereq: AEDEcon 2105. This course is available for EM credit.

2244T Human Resource Management and Leadership U 3 A study of human resource, supervisory, and leadership principles and practices that focus on recruitment, training, evaluating, and compensating employees for improved productivity. Au, Sp. 3 cl. This course is available for EM credit.

2247T Business Law U 3 A study of legal principles, contracts, negotiable instruments, leases, sales, product liability, and consumer protection. Au. 3 cl. Prereq: Not open to students with credit for 247T. This course is available for EM credit.

2249T Fundamentals of Business Finance U 3 A study of basic finance principles, such as financial institutions, time value of money, financial analysis, risk and return, budgeting, and investments. Sp. 2 cl, 1-2 hr lab. Prereq: AEDEcon 2105 (BusTec 101T or 102T). Prereq or concurr: 1151T (151T) or AEDEcon 2001 (200). Not open to students with credit for 249T. This course is available for EM credit.

2250T Fundamentals of International Business U 3 A study of the basic principles and concepts of personal selling with emphasis on practical application and personal interaction. Au, Sp. 2 cl, 1-2 hr rec. Prereq: 1151T or AEDEcon 2001. This course is available for EM credit.

Crop and Soil Technology (CRPSOIL)

1201T Exploring Agronomy, Sustainable Agriculture, and Crop Management and Soil Conservation U 0.5 Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success. Au. 1 cl.

2189T Practicum in Crop and Soil Technologies U 1 Supervised experiences in field, laboratory, and/or industry work. Au, Arr. A grade of C or higher required to meet graduation requirements. Repeatable to a maximum of 3 cr hrs.

2191T Crop and Soil Internship U 3 Supervised employed work experience on a crop production farm or related industries. Su, Au, Sp. Arr. Prereq: Soph standing, and CPHR 2.0 or above, and permission of instructor. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 6 cr hrs.

2193T Individual Studies U 1-3 Designed to give an individual student an opportunity to pursue special studies not offered in other courses. Au, Sp. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

Course offerings are subject to change.
1201.01T Exploring Engineering Technologies  U 0.5
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.
Au. 1 cl.

1201.02T Exploring Construction Careers and Industry  U 0.5
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.
Au. 1 cl.

1201.03T Exploring Agricultural Systems Management  U 0.5
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.
Au. 1 cl.

2050T Introduction to Geographic Information Systems  U 3
A study of spatial relationships using global positioning and geographic information systems in urban and rural landscapes.
Sp. 1 cl, 2 2-hr labs. Prereq: GenMath 1040T or Math 1050 or Math placement level R or higher. This course is available for EM credit.

2092T Problem Solving: Career and Society Applications  U 2
A multi-discipline, problem-solving course with emphasis on the application of problem solving and related topics in career and society settings.
Prereq: Soph standing. Not open to students with credit for 292T. This course is available for EM credit.

2110T Construction Drawings & Basic Estimating  U 1
Reading and interpretation of various types of construction drawings, as well as an introduction to material quantity calculations and estimate development.
Au. 1 rec, 1 2-hr lab. Prereq: GenMath 1030T or Math placement level S or higher. This course is available for EM credit.
2120T Building Science: Methods & Materials  U 4
A study of materials science and installation methods used in residential and commercial construction. Emphasizes structural and architectural systems, moisture managed designs, air sealing, and thermal design for energy efficient structures.
Au. 2 1½-hr cl, 1 3-hr lab. Prereq or concwr: English 1110.01; GenMath 1145T or Math 1148 or higher. This course is available for EM credit.

2121T Drafting & Computer-Aided Design  U 2
Principles and applications of technical drawing utilizing proper drafting techniques for creating two dimensional, scaled drawings both by hand and by using current computer-aided design software. Basic computer skills required.
Sp. 1 cl, 1 2-hr lab. Recommended prereq: Previous experience with mechanical drawing, engineering graphics, drafting, or equivalent. This course is available for EM credit.

2120T Estimating and Scheduling  U 2
Estimating complete projects and developing project schedules for standard construction projects in the residential or commercial sectors of the industry.
Sp. 1 cl, 1 1 2-hr lab. Prereq: 2110T, 2120T, 2440T, and Soph standing. This course is available for EM credit.

2170T Construction Project Management  U 2
Principles and practices of construction project and construction business management.
Sp. 2 2-hr lab. Prereq or concwr: 2160T, and Soph standing. This course is available for EM credit.

2191.01T Construction Management Internship  U 2-3
Construction Management occupational internship, structured to provide occupational experiences; supervised by an industry employer and coordinated by faculty.
Su, Au. 1 cl, 1 2-hr lab. Prereq: 2110T and 2120T (253T, 256T, and 257T), and 2600T, and CPHR 2.0 or above, and permission of instructor. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 6 cr hrs or 2 completions.

2191.02T Hydraulic Power and Motion Control Internship  U 3
Employment in fluid power industries; structured to provide varied occupational experiences; supervised by an industry employer and coordinated by faculty.
Su, Au, Sp. Arr. Prereq: 2224T (274T), 2226T (271T), and 2322T (202T), and CPHR 2.0 or above; permission of instructor. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 6 cr hrs.

2191.03T Power Equipment Internship  U 3
Employment in power equipment industries; structured to provide varied occupational experiences; supervised by an industry employer and coordinated by faculty.
Su, Au, Sp. Arr. Prereq: 2324T (241T), 2322T (202T), and 2324T (245T), and CPHR 2.0 or above, and permission of instructor. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 6 cr hrs.

2191.04T Agricultural Systems Technology Internship  U 2
Agricultural Systems Technology occupational internship structured to provide occupational experiences; supervised by an industry employer and coordinated by faculty.
Su, Au, Sp. Arr. Prereq: CPHR 2.0 or above, and permission of instructor. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.

2193T Individual Studies  U 1-3
Designed to give an individual student an opportunity to pursue special studies not offered in other courses.
Au. Sp. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

2194T Group Studies  U 1-3
Designed to give groups of students an opportunity to pursue special studies not offered in other courses.
Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

2214T Fundamentals of Fluid Power and Components  U 4
An introduction to the fluid power industry and the principles of fluid power system operation. Characteristics of operation and performance are investigated for pumps, motors, and valves. Au. 3 cl, 1 2-hr lab. Prereq: GenMath 1030T or Math placement level S or higher. A grade of C or better required to meet graduation requirements for Hydraulic Power and Motion Control. This course is available for EM credit.

2221T Component Rebuilding  U 2
Supervised laboratory experience with emphasis on developing and improving hydraulic component service competencies related to classroom and career activities.
Sp. 2 2-hr labs. Prereq: 2214T (262T or 270T). Prereq or concwr: 2224T (274T) and 2336T (273T). Not open to students with credit for 289.03T.

2224T Fluids, Filtration, and Fluid Conveyance  U 2
Characteristics of hydraulic fluids; methods of filtering oils and of conveying pressurized fluids.
Sp. 1 cl, 1 2-hr lab. Prereq: 2214T (262T or 270T). Not open to students with credit for 274T. This course is available for EM credit.

2226T Components and Hydraulic Circuits  U 2
A study of advanced hydraulic component topics and of how fluid power components are integrated into a complete system, including performance characteristics and energy efficiency.
Sp. 1 cl, 1 2-hr lab. Prereq: 2214T. Prereq or concwr: GenMath 1145T. A grade of C or better required to meet graduation requirements for Hydraulic Power and Motion Control. This course is available for EM credit.

2234T Basic Pneumatic Systems  U 2
Principles, operation, maintenance, service, and application of pneumatic components and systems used for control and automation on industrial equipment.
Au. 1 cl, 1 3-hr lab. Prereq or concwr: GenMath 1145T. This course is available for EM credit.

2238T Electrohydraulics and System Design  U 3
A study of the interface and design applications of electricity and electronics with fluid power components integrated into a complete system, including performance characteristics and energy efficiency.
Au. 2 cl, 1 2-hr lab. Prereq: 2226T (272T). Not open to students with credit for 276T. A grade of C or better required to meet graduation requirements for Hydraulic Power and Motion Control. This course is available for EM credit.

2240T Welding Technology  U 3
A study of basic welding including materials, equipment, and techniques.
Au. Sp. cl, 2 2-hr labs. Prereq: Not open to students with credit for 250T. This course is available for EM credit.

2242T Metals and Metal Manufacturing  U 2
Introduction to metals and metal manufacturing; including materials, equipment, processes, and products.
Sp. 1 cl, 1 2-hr lab. Prereq: GenMath 1040T or Math 1050 or Math placement level R or higher. This course is available for EM credit.

2248T Instrumentation and Control Systems  U 4
Techniques and equipment used for instrumentation of fluid power systems for the purposes of data acquisition and control. Sp. 3 cl, 1 2-hr lab. Prereq: 2238T (278T). Not open to students with credit for 279T. This course is available for EM credit.

2310T Building Science: Electrical and Lighting Systems  U 3
Principles, equipment, and applications of building electrical and lighting systems with emphasis on energy and resource conservation and sustainability.
Au. 2 cl, 1 2-hr lab. Prereq: TecPhys 1150T. Not open to students with credit for 2160T.

2312T Engineering Technology Fundamentals  U 3
An introduction to basic scientific and engineering concepts commonly encountered by engineering technicians emphasizing calculations, measurements, and instrumentation.
Au. 2 cl, 1 2-hr lab. This course is available for EM credit.
2314T Introduction to Power Equipment  U 3
An introduction to the off-road machinery industries, their past and future, and the application of engineering principles to the associated equipment. Au. 2 cl, 1-3 hr lab. Prereq: GenMath 1030T or Math placement level S or higher. This course is available for EM credit.

2322T Basic Electricity and Electronics  U 3
Principles of AC and DC electricity and electronics with emphasis on components, operations, and applications. Sp. 2 cl, 1-2 hr lab. Prereq: GenMath 1040T or Math 1050 or Math placement level R of higher. This course is available for EM credit.

2324T Engine Diagnosis and Repair  U 3
An advanced study of multiple cylinder diesel engine diagnostic techniques including repair and rebuilding procedures. Sp. 1 cl, 1 rec, 2-2 hr labs. Prereq: 2011T (240T) or 2314T (241T). Not open to students with credit for 245T. A grade of C or better required to meet graduation requirements for Power Equipment. This course is available for EM credit.

2325T Analog and Digital Electronics  U 3
An introduction to analog and digital electronics with emphasis on industry applications. Au. 2 cl, 1-2 hr lab. Prereq: 2322T (202T). Not open to students with credit for 203T. A grade of C or better required to meet graduation requirements for Hydraulic Power and Motion Control. This course is available for EM credit.

2331T Distributor Management  U 2
Organization and operation of distributor marketing of mobile equipment and fluid power components and systems; emphasis on service and parts distribution. Sp. 2 cl. Prereq or concur: BusTec 1151T or AedEcon 2001. This course is available for EM credit.

2332T Mobile Heating and Air Conditioning  U 1
Principles, operation, maintenance, service, and repair of mobile heating and air conditioning components and systems. Au. 1-2 hr lab. Prereq: GenMath 1030T or Math placement level S or higher. This course is available for EM credit.

2334T Vehicle Electrical and Electronic Systems  U 2
A study of electrical and electronic systems utilized in off-road machinery. Au. 1 cl, 1-2 hr lab. Prereq: 2322T. A grade of C or better required to meet graduation requirements for Power Equipment. This course is available for EM credit.

2336T Methods of Power Transmission  U 2
Comparison and evaluation of power transmission by mechanical, electrical, and fluidic means. Au. 1 cl, 1-2 hr lab. Prereq: GenMath 1030T or Math placement level S or higher. Prereq or concur: 2312T. This course is available for EM credit.

2338T Diesel Engine Systems  U 3
A study of the principles, operation, and service of diesel engine systems with emphasis on fuel systems and engine controls. Au. 2 cl, 1-3 hr lab. Prereq: 2324T. A grade of C or better required to meet graduation requirements for Power Equipment. This course is available for EM credit.

2345T Building Science: Mechanical Systems  U 3
Principles, equipment, and applications of building mechanical systems with emphasis on energy and resource conservation and sustainability. Sp. 2 cl, 1-2 hr lab. Prereq: TecPhys 1150T. Not open to students with credit for 2150T. This course is available for EM credit.

2440T Site Development and Surveying  U 4
Principles of hydrology, soil mechanics, and surveying as applied to residential and commercial construction. Au. 2 1½ hr cl, 1-3 hr lab. Prereq or concur: 2110T or HortTec 2320T (235T); GenMath 1145T (145T) or Math Placement Level L, M, or N. Not open to students with credit for 253T. This course is available for EM credit.

2600T Construction Safety & Health  U 2
Health and construction safety awareness; focusing on OSHA 30-hour training and certification, OSHA mandated recordkeeping, and corporate health plan development. Sp. 1 cl, 1-2 hr lab. Prereq: English 1110.01.

Environmental Sciences Technology (ENVSCT)

1201T Exploring Environmental Sciences  U 0.5
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success. Au. 1 cl.

General Studies (GENSTDS)

1201.01T College Orientation  U 0.5
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success. Au, Sp. 1 cl.

1201.02T College Orientation for Transfer Students  U 0.5
Introduction to the advanced steps and opportunities for success in a life-long journey of becoming an educated person as you integrate into the University and ATi communities. Au, Sp. 1 cl.

General Studies: Biology (GENBIOL)

1200T General Biology  U 4
A basic course intended to provide a biological foundation, with supporting chemistry concepts, emphasizing principles and applications of biology. Sp. 3 cl, 1-2 hr lab. Prereq: Not open to students with credit for 120T or Biology 1113 (113). This course is available for EM credit. Course fee: $50

1250T General Botany with Applications  U 4
Introduction to the fundamental structures and processes of plants, including plant anatomy, physiology, morphology, reproduction, and genetics. Au, Sp. 3 cl, 1-2 hr lab. Prereq: Not open to students with credit for 125T or HCS 300 or PnliBio 300. This course is available for EM credit. Course fee: $50

2194T Group Studies  U 1-3
Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

General Studies: Chemistry (GENCHEM)

1100T Introduction to General Chemistry  U 3
Develops the basic concepts of atomic structure, bonding theory, molecular structure, chemical reactions, solutions, equilibrium, and acid-base chemistry. Au, Sp. 3 cl. Prereq: GenMath 1040T or Math 1050 or Math placement level R of higher. Not open to students with credit for Chem 1110 or 1210. This course is available for EM credit.

2194T Group Studies  U 1-3
Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.
General Studies: Communication Skills (GENCOMM)

1201T Exploring Agricultural Communication, Education and Leadership U 0.5
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.
Au. 1 cl.

2115T Technical and Business Writing U 3
Principles of technical and business communication in the global setting with emphasis on practical applications for professional and business environments involving correct usage and documentation in writing, reading, speaking and listening.
Sp. 3 cl. Prereq: English 1110.01 or 1110.03. Not open to students with credit for AgrComm 2367. This course is available for EM credit.

2189.01T Agricultural Communication Practicum U 1-2
Practicum is an experiential learning class that allows students to gain practical agricultural communication experience in a supervised setting. Emphasis is placed on developing technical communication skills in preparation for careers in the agricultural communication industry.
Au, Sp. Arr. Prereq: AgrComm 2367. This course is not open to students with credit for AgrComm 2367. This course is available for EM credit.

2189.02T Community Leadership Practicum U 1-2
Practicum is an experiential learning class that allows students to gain practical community leadership experience in a supervised environment. Emphasis is placed on developing technical communication skills in preparation for careers in the community leadership industry.
Sp. Prereq or concur: ComLdr 2530. A grade of C or higher required to meet graduation requirements.

2194T Group Studies U 1-3
Designed to give groups of students an opportunity to pursue special studies not offered in other courses.
Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

**General Studies: Humanities (GENHUM)**

1190.02T Humanities as a Window on Cultural Pluralism: Global Arts U 3
An introduction to specific visual arts and cultural contexts of four societies: Japan, Ghana, France, USA.
Au. 3 cl. This course is available for EM credit.

2193T Individual Studies U 1-3
Designed to give an individual student an opportunity to pursue special studies not offered in other courses.
Au, Sp. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

2194T Group Studies U 1-3
Designed to give groups of students an opportunity to pursue special studies not offered in other courses.
Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

**General Studies: Mathematics (GENMATH)**

1030T Basic Mathematics I U 3
A foundation course in arithmetic and beginning algebra skills. Emphasis is on obtaining competencies necessary to be successful in the Basic Mathematics II course.
Prereq: Not open to students with credit for 1040T or 1140T.

1040T Basic Mathematics II U 3
A review of algebra and geometry fundamentals with emphasis on measurement, percent application, two and three-dimensional geometry application, and direct and inverse proportion.
Prereq: 1030T with a grade of C- or better, or Math placement Level S. Not open to students with credit for 1140T. This course is available for EM credit.

1141T Business Mathematics U 3
The mathematics of business and finance: including proportion, the income statement, simple interest, compound interest, annuities, amortization and sinking funds.
Au, Sp. 3 cl. Prereq: 1040T or 1140T or Math placement level R or higher. This course is available for EM credit.

1145T Technical Mathematics U 3
A study of technical applications and computational methods involving variation, systems of equations, quadratic equations, graphical solutions to equations, logarithmic and exponential equations, and trigonometry.
Au, Sp. 3 cl. Prereq: 1040T or 1140T with a grade of C- or better, or Math placement level R or higher. This course is available for EM credit.

1181T Hispanic Culture and Language in the Workplace U 3
Develop an understanding of how various Latino cultures influence workplace issues in order to improve the working environment and learn a basic workplace Spanish vocabulary.
Au, Sp. 3 cl. Prereq: Not open to students with credit for 184T. A grade of C or better is required to meet graduation requirements.

1190.02T Humanities as a Window on Cultural Pluralism: Global Arts U 3
An introduction to specific visual arts and cultural contexts of four societies: Japan, Ghana, France, USA.
Au. 3 cl. This course is available for EM credit.

Horticultural Technology (HORTTEC)

1201T Exploring Horticulture U 0.5
Promotes student success in college and preparation for a career; explores personal and career interests, needs, goals, and the support services available for student success.
Au. 1 cl.

2110T Plant Materials I U 3
Plant identification course to include: trees, shrubs, evergreens, vines, annuals, perennials and tropical plants common to the Midwest covering: identification, morphology, classification, nomenclature and adaptability.
Au, Sp. 1 cl, 2-2 hr lab. Prereq: Not open to students with credit for 243T and 244T. A grade of C or better required to meet graduation requirements for Landscape Horticulture and Turfgrass Management. This course is available for EM credit.

2120T Plant Materials II U 3
Plant identification including: less common deciduous and evergreen trees, shrubs, vines and herbaceous plants common to the Midwest covering: identification, morphology, classification, nomenclature and adaptability.
Au, Sp. 1 cl, 2-2 hr labs. Prereq: Not open to students with credit for 243T and 244T. A grade of C or better is required to meet graduation requirements for Landscape Horticulture. This course is available for EM credit.

2140T Horticultural Photography U 1
Introductory digital photography and image editing course emphasizing composition, lighting, and exposure. Digital correction and editing with emphasis on horticultural marketing and portfolio development.
Au. 1 3-hr lab. Prereq: Not open to students with credit for 270T. This course is available for EM credit.

Course offerings are subject to change.
2189.10T Practicum in Floral Design  U 1-2
Supervised experiences in floral design and flower shop work. Au, Sp. Arr. Prereq: 2600T. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs or 4 completions.

2189.21T Practicum in Greenhouse Management  U 1
Supervised experiences in greenhouse crop production. Su, Au, Sp. Arr. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.

‡2189.22T Practicum in Nursery Management  U 1
Supervised experiences in nursery crop production and management. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs.

2189.30T Practicum in Landscape Horticulture  U 1-2
Supervised experiences in landscape maintenance work. Su, Au, Sp. Arr. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs or 4 completions.

2190.10T Practical Leadership in Floral Design  U 1-2
Supervised experiences in flower shop leadership and management. Sp. Arr. Prereq: 2189.10T (264T and 268T). A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 2 cr hrs or 2 completions.

2190.21T Practical Leadership in Greenhouse Management  U 1
Supervised experiences in greenhouse leadership and management. Au, Sp. Arr. Prereq: 2189.21T. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 2 cr hrs.

2191.10T Floral Design and Marketing Internship  U 1-2
Employment in the floral industry, structured to provide varied occupational experiences, supervised by an industry employer, and coordinated by faculty. Au. 2 cl, 1 3-hr lab. Prereq or concur: GenMath 1040T or Math 1050 or math placement level R or higher. A grade of C or better is required to meet graduation requirements for Turfgrass Management.

2191.21T Greenhouse Management Internship  U 1-3
Employment in the greenhouse industry, structured to provide varied occupational experiences, supervised by an industry employer, and coordinated by faculty. Su, Au, Sp. Arr. Prereq: 1201T and 2620T (264T). A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 4 cr hrs or 4 completions.

‡2191.22T Nursery Management Internship  U 3
Employment in the nursery industry, structured to provide varied occupational experiences, supervised by an industry employer, and coordinated by faculty. Prereq: 1201T and 2189.21T. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 6 cr hrs.

2191.23T Greenhouse Engineering Technology Internship  U 3
Experience of employment in the greenhouse industry, structured to provide varied occupational experiences supervised by an industry employer, and coordinated by faculty. Su, Au, Sp. Arr. Prereq: 1201T, 2189.21T, and 2500T. A grade of C or better is required to meet graduation requirements for Greenhouse and Nursery Management Greenhouse Engineering Technology specialization. Repeatable to a maximum of 6 cr hrs.

2191.30T Landscape Horticulture Internship  U 3
Employment in the landscape industry structured to provide varied occupational experiences. Supervised by an industry employer and coordinated by faculty. Su, Au, Sp. Arr. Prereq: 1201T (230T); a grade of C or above in 2110T (244T); GPA 2.0 or above. A grade of C or better is required to meet graduation requirements. Repeatable to a maximum of 6 cr hrs.

2191.50T Turfgrass Management Internship  U 3
Employment in turfgrass management industry at an approved facility structured to provide varied occupational experiences. Supervised by an industry professional and coordinated by faculty. Su, Au, Sp. Arr. Prereq: A grade of C or above in 2225T (289.05T and EngTech 219T), 2230T (223T) and 2250T (225T), and CPHR 2.0 or above. A grade of C or better required to meet graduation requirements. Repeatable to a maximum of 6 cr hrs.

2191.55T Turfgrass Equipment Manager Internship  U 2
Employment in turfgrass equipment management industry at an approved facility structured to provide varied occupational experiences. Supervised by an industry professional and coordinated by faculty. Su, Au, Sp. Arr. Prereq: A grade of C or above in 2225T and 2227T. A grade of C or better required to meet graduation requirements.

2193T Individual Studies  U 1-3
Designed to give an individual student an opportunity to pursue special studies not offered in other courses. Su, Au, Sp. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions. This course is graded S/U.

2194T Group Studies  U 1-3
Designed to give groups of students an opportunity to pursue special studies not offered in other courses. Su, Au, Sp. Arr. Prereq: Permission of instructor. Repeatable to a maximum of 10 cr hrs or 10 completions.

2225T Turf Equipment Operation and Maintenance  U 3
Principles and practices of turf facilities organization and management, equipment maintenance, operation, safety and fleet management. Au, 2 cl, 1 3-hr lab. Prereq or concur: GenMath 1040T or Math 1050 or math placement level R or higher. A grade of C or better required to meet graduation requirements for Turfgrass Management.

2227T Turfgrass Reel Mower Maintenance  U 3
Theory, configuration, and maintenance of turfgrass reel mower cutting units, including a study of the bedknife attitude, spin vs relief grinding, backlapping, bedknife selection. Sp. 4 cl, 2 3-hr labs. (7-wk offering)

2230T Fundamentals of Turfgrass Science and Management  U 3
Identification, growth and development characteristics and responses, uses, and fundamental practices essential to the production and management of fine quality turf. Au. 2 cl, 1 3-hr lab. Prereq or concur: GenBiol 1250T and GenMath 1040T or Math 1050 or math placement level R or higher. A grade of C or better required to meet graduation requirements for Landscape Horticulture and Turfgrass Management. This course is available for EM credit.

2240T Golf Course and Sports Turf Irrigation and Drainage  U 3
Principles of design, selection, installation, maintenance, and operation of equipment and materials used in golf course and sports turfgrass irrigation and drainage systems. Sp. 4 cl, 2 3-hr labs. (7-wk offering) Prereq: GenMath 1040T or Math 1050 or math placement level R or higher. A grade of C or better required to meet graduation requirements for Turfgrass Management.

2250T Turfgrass Cultural Systems and Practices  U 3
A study of cultural and environmental factors related to maintaining fine turfgrasses with special emphasis on mathematical calculations and materials applications. Sp. 4 cl, 2 3-hr labs. (7-wk offering) Prereq: 2225T (EngTech 219T), 2230T (223T). Not open to students with credit for 225T. A grade of C or better required to meet graduation requirements for Turfgrass Management.

Course offerings are subject to change.
2260T Sports Turf Operations Organization and Management U 3
Specialized course in sports turf management including the organization, design, construction, equipment, field surface quality, safety, personnel, finances, renovation, and maintenance of a sports turf facility.
Au. 2 cl, 1 3-hr lab. Prereq: 2191.50T (290.05T), BioTech 2218T (218T). Prereq or concur: 2880T (272T) or 2890T (274T). A grade of C or better required to meet graduation requirements for Turfgrass Management.

2270T Golf Course Organization and Management U 3
Specialized course in golf course management including the organization, design, construction, equipment, personnel, finances, and maintenance of the golf course.
Au. 2 cl, 1 3-hr lab. Prereq: 2191.50T (290.05T), BioTech 2218T (218T). Prereq or concur: 2880T (272T) or 2890T (274T). Not open to students with credit for 227T. A grade of C or better required to meet graduation requirements for Turfgrass Management.

2320T Landscape Construction U 3
Techniques for building, pricing, bidding and installing various landscape plantings, features and structures including (but not limited to): pavers, retaining walls and wooden structures.
Au. 2 cl, 1 3-hr lab. Prereq: GenMath 1040T or Math 1050 or math placement level R or better. A grade of C or better required to meet graduation requirements for Landscape Horticulture. This course is available for EM credit.

2360T Landscape Design U 3
Introduction to landscape drafting, CAD, design and planning emphasizing the design program, form composition, drafting techniques, design representation and 2 and 3-dimensional CAD.
Sp. 1 cl, 2 3-hr labs. Prereq or concur: 2110T. Not open to students with credit for 231T. A grade of C or better required to meet graduation requirements for Landscape Horticulture.

†2410T Sustainable Nursery Management and Production U 4
Principles of sustainable nursery management, marketing and production operations with an emphasis on nursery facilities and practices necessary to produce field grown and container nursery stock.
Prereq: 2120T, and GenBioI 1250T (125T) or Biology 1113 (111). Not open to students with credit for 241T and 242T.

†2420T Garden Center Management U 2
Principles of retail garden center management including sales, marketing, advertising, personnel management, customer relations and management of product lines, stock and displays.
(7-wk offering) Prereq: 2120T. Not open to students with credit for 248T.

2500T Greenhouse Environment Control U 4
Principles and practices of sustainable greenhouse operation and management. Topics include glazings, frames, heating, cooling, energy conservation, nutrition, irrigation, light, plant growth and operations management.
Au. 3 cl, 1 3-hr lab. A grade of C or better required to meet graduation requirements in Greenhouse and Nursery Management Nursery Specialization. This course is available for EM credit.

2520T Greenhouse Perennial Production U 3
Principles and practices of greenhouse perennial plant production, including propagation, vernalization, photoperiodic treatments, production techniques, integrated pest and plant health management, and post-harvest marketing.
Au. 2 cl, 1 3-hr lab. Prereq: 2500T (251T). Not open to students with credit for 255T. This course is available for EM credit.

2540T Greenhouse Production of Annuals U 3
Principles and practices of greenhouse bedding and flowering container plant production, including propagation, transplanting, nutrition, environmental requirements, height control, harvesting, pests, pathogens and post-harvest marketing.
Sp. 2 cl, 1 2-hr 45-minute lab. Prereq: 2500T.

2560T Greenhouse Vegetable Production U 3
Principles and practices of greenhouse vegetable crop production, including propagation, production systems, nutrition, environmental requirements, management practices, harvesting, pests, pathogens, food safety and post-harvest handling.
Au. 2 cl, 1 2-hr 45-minute lab. Prereq: 2500T.

2600T Commercial Floral Design U 4
A basic course introducing the elements and principles of floral design as they relate to the construction of saleable flower arrangements and corsages.
Au. 2 cl, 2 3-hr labs. Prereq: Not open to students with credit for 262T and 264T. This course is available for EM credit.

2620T Retail Flower Shop Operation U 2
Principles and practices of management and operation of a retail flower shop with emphasis on purchasing, pricing, merchandising, selling, delivery and wire services.
Sp. 2 cl, 2 3-hr labs. Prereq: 2600T. This course is available for EM credit.

2640T Flowers for Celebrations U 4
A specialized course dealing with consulting, planning, organizing and creating floral designs and decor for wedding ceremonies and receptions, parties, and celebrations of life.
Au. 2 cl, 2 3-hr labs. Prereq: 2600T (262T and 264T). Not open to students with credit for 265T and 269T.

2660T Post-Harvest Flower Care U 2
Principles and practices of post-harvest flower care from producer to consumer with emphasis on identification and proper care and handling at the retail level.
Sp. 2 cl. Prereq: 2640T. Concur: 2680T. Not open to students with credit for 263T. This course is available for EM credit.

2680T Contemporary Floral Design U 3
An advanced course emphasizing the artistic nature of floral design with a global perspective of contemporary styles, techniques and trends.
Sp. 1 cl, 2 3-hr labs. Prereq: 2640T. Concur: 2660T. Not open to students with credit for 267T.

2740T Plant Propagation U 4
Principles, techniques, skills, materials, and facilities used to propagate herbaceous and woody plants with emphasis on commercial propagation methods.
Sp. 3 cl, 1 2-hr 45-minute lab. Prereq: GenBioI 1250T or Biology 1113 or HCS 2202.

2819T Pesticides and their Use U 3
A study of the classification of pesticides and their mode of action, physiological effects, persistence in the environment, benefits, hazards, use, performance and regulation.
Au. 3 cl. Prereq: Not open to students with credit for BIOTECH 2219T. This course is available for EM credit.

2880T Principles of Weed Science U 3
A study of weed classification, ecology, plant competition, herbicide formulation, properties and uses of herbicides and weed management in horticultural crops.
Au. Sp. 2 cl, 1 2-hr lab. Prereq: GenBioI 1250T (125T). Prereq or concur: GenChem 1100T (131T). Not open to students with credit for 227T or CrpSoil 2422T (260T). A grade of C or better required to meet graduation requirements for Landscape Horticulture and Turfgrass Management. This course is available for EM credit.

2890T Plant Diseases of Ornamentals and Turf U 3
Principles and practices in diagnosing and treating plant diseases on woody ornamentals and turf.
Sp. 2 cl, 1 2-hr lab. Prereq: 2110T or 2120T or 2230T; GenBioI 1250T. A grade of C or better required to meet graduation requirements for Landscape Horticulture and Turfgrass Management. This course is available for EM credit.

3550T Components of Greenhouse Technologies U 3
A study of selected components of modern greenhouse technology, including electric motors, automated material handling and watering controls, pesticide application, and supplemental lighting.
Au. 2 cl. 1 3-hr lab. Prereq: 2500T; GenMath 1145T; EngTech 2312T and 2322T. This course is available for EM credit.

3560T Integrated Greenhouse Climate Control U 4
Computerized climate control for greenhouse plant production, including data acquisition and control basics, use of the data, and climate control strategies for improved production efficiency.
Sp. 3 cl, 1 3-hr lab. Prereq: 2500T and 3550T. This course is available for EM credit.

Course offerings are subject to change.
Technical Physics (TECPHYS)

1150T Technical Physics  U 5
Principles and applications of forces, motion, energy, matter, heat, thermodynamics, electricity, mechanical waves, and electromagnetic radiation.
Au, Sp. 4 cl, 1 2-hr lab. Prereq: GenMath 1145T (145T) or Math 1148 (148) with a grade of C- or better. Not open to students with credit for 101T or 102T. This course is available for EM credit.

2194T Group Studies  U 1-3
Designed to give groups of students an opportunity to pursue special studies not offered in other courses.
Prereq: Permission of instructor. Repeatable to a maximum of 10 cr or 10 completions.

Associate of Science Courses

Agricultural Communication (AGRCOMM)

12330 Public Perceptions of Agricultural and Environmental Issues  U 4
Students will explore vital issues in food, agricultural, and environmental sciences and be exposed to methods to critically evaluate, effectively communicate, and influence decisions made about these issues. They will engage with issue stakeholders and investigate the impacts that their varying perceptions have on the food system, the environment, and society.
Au. GE foundations writing and information literacy course.

2367 Agricultural Issues in Contemporary Society  U 3
This course helps students develop a critical understanding of agricultural, environmental and related issues facing the United States and the world while improving their writing skills.
Au, Sp. 2 cl, 1 2-hr lab. Prereq: English 1110.01. GE writing and comm: level 2 and diversity soc div in the US course.

2531 Introduction to Agricultural Communication Practices  U 3
This course provides an introduction to the field of agricultural communication and examines how agricultural communication fits into the larger U.S. mass media system. This course will introduce the communication process, how media serves as a communication channel, and how agricultural communicators utilize media to reach a variety of audiences.
Au. 3 cl.

Agricultural, Environmental, and Development Economics (AEDECON)

2001 Principles of Food and Resource Economics  U 3
Microeconomic principles applied to allocation issues in the production, distribution, and consumption of food and natural resource use.
Au, Sp. 3 cl. Not open to students with credit for 2001H or Econ 2001. This course is available for EM credit. GE soc sci human, nat, and econ resources course.

Course offerings are subject to change.
2105 Managerial Records and Analysis  U 3
Nature and need for business records, analysis and interpretation of essential records from manager/owner viewpoint; their use in small business practices.
Au, Sp. 3 cl, 1-hr lab.  Prereq: 2001 or 2001H or Econ 2001.01, 2001.02 or 2001.03H. Not open to students with credit for AcctMIS 2200 or 2300.

3105 Principles of Agribusiness and Food Supply Chains  U 3
Study of the actors, intrinsic issues and support systems that are essential to make agribusiness, commodity and food supply chains effective.

3141 Agricultural Cooperatives  U 2
Basic principles of cooperatives including types of organizations, legal aspects, governance, membership relations, debt and equity financing, organization and inter-cooperative problems, and distribution of earnings.

Agricultural Systems Management (AGSYSMT)

2305 Professional Development I  U 2
Business communications and professional development in agricultural systems management including job search strategies, informative and persuasive writing, academic planning, collaboration, project documentation and reporting, and presentations.
Sp. 2 ½-hr cl.  Prereq: English 1110. Not open to students with credit for CONSYSM 2305. This course is available for EM credit.

Agriscience Education (ASE)

2189 Early Experience in Agriscience Education  U 1
The early experience program is designed to help students explore careers and gain experience in Agriscience Education.
Au. Arr. Not open to students with credit for AEE 280.

Animal Science (ANIMSCI)

2000 Animal Handling  U 2
General introduction to domestic animal behavior and hands-on experience handling food animal species.
Au, Sp. 1 cl, 1 2-hr lab.

2200.01 Introductory Animal Sciences  U 3
A study of the basic principles of genetics, breeding, reproduction, nutrition, behavior, and biotechnology as it applies to the molecular, cellular, and physical underpinnings of domesticated animal form and function.
Au, Sp. 3 cl.  Prereq: Not open to students with credit for 2300H. GE nat sci bio course. GE foundation natural sci course.

2200.03 Animal Systems  U 2
Overview of the size and scope of the livestock and companion animal systems, the economic and social impact of the animals and their products, and the structure of the industries.
Au, Sp. online.

| 12367 Animals in Society  U 3 |
| Introduction to the historical, social, cultural, economic and legal frameworks within which current human-animal relationships have evolved. |
| Prereq: English 1110, or equiv. GE writing and comm: level 2 and soc sci indivs and groups course. GE foundation social and behavioral sci course. |

4999 Research with Distinction  U 0-6
Conducting and reporting research with distinction.
Su, Au, Sp. Prereq: CPHR 3.0 overall, and GPA 3.0 or above in major, and permission of project supervisor. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

Biology (BIOLOGY)

1101 Introductory Biology  U 4
Basic principles of biology; topics include the nature of science, organismal diversity, evolution, ecology, genetics, reproduction, and cellular structure and function. Not intended students majoring in one of the biological sciences.
Au. 3 cl, 1 3-hr lab.  Prereq: Not open to students with credit for 1101E, 1113 (113), 1113H (115H), 101, Entmly 1101 (101), or MolGen 1101 (PntBio101). This course is available for EM credit. GE nat sci bio course. Course fee: $80 (WST campus)

1113.01 Biological Sciences: Energy Transfer and Development  U 4
Exploration of biology and biological principles; evolution and the origin of life, cellular structure and function, bioenergetics, and genetics. A broad introduction to biology comprises both Biology 1113 and 1114.
Au, Sp. 3 cl, 1 3-hr lab.  Prereq: Math 1120, 1130, 1148, 1150, or above, or Math Placement Level L or M. Prereq or concu: Chem 1110, 1210, 1610, or 1910H, or permission of course coordinator. Not open to students with credit for 1113 or 1113.02. This course is available for EM credit. GE nat sci bio course. GE foundation natural sci course. Course fee: $50 (WST campus)

1114.01 Biological Sciences: Form, Function, Diversity, and Ecology  U 4
Exploration of biology and biological principles; evolution and speciation, diversity in structure, function, behavior, and ecology among prokaryotes and eukaryotes. A broad introduction to biology comprises both Biology 1113 and 1114.
Au, Sp. 3 cl, 1 3-hr lab.  Prereq: Math 1120, 1130, 1148, or 1150 or above, or Math Placement Level L or M. Prereq or concu: Chem 1110, 1210, 1610, or 1910H, or permission of course coordinator. Not open to student with credit for 1114 or 1114.02. This course is available for EM credit. GE nat sci bio course. GE foundation natural sci course. Course fee: $50 (WST campus)

Chemistry (CHEM)

1110 Elementary Chemistry  U 5
Introductory chemistry for non-science majors, including dimensional analysis, atomic structure, bonding, chemical reactions, states of matter, solutions, chemical equilibrium, acids and bases, along with topics in organic and biological chemistry.
Au, Sp. 3 cl, 1 rec, 1 3-hr lab.  Prereq: Math 1073, 1074, 1075 or above; Math Placement Level L, M, N, or R; or ACT Math subscore of 22 or higher that is less than 2 years old. Not open to students with credit for 1210, 1250, 1610, 1910H. This course is available for EM credit. GE nat sci phs course. WST campus course fee: $50

1210 General Chemistry I  U 5
First course for science majors, covering dimensional analysis, atomic structure, the mole, stoichiometry, chemical reactions, thermochemistry, electron configuration, bonding, molecular structure, gases, liquids, and solids.
Au, Sp. 3 cl, 1 rec, 1 3-hr lab.  Prereq: One unit of high school chemistry, and Math Placement Level L or M; or a grade of C- or above in Math 1120, 1130, 1131, 1148, 1150, or above. Not open to students with credit for 1210, 1610, 1910H. This course is available for EM credit. GE nat sci phs course. WST campus course fee: $50

1220 General Chemistry II  U 5
Continuation of 1210 for science majors, covering solutions, kinetics, chemical equilibrium, solubility and ionic equilibria, qualitative analysis, thermodynamics, electrochemistry, descriptive chemistry, coordination compounds, and nuclear chemistry.
Sp. 3 cl, 1 rec, 1 3-hr lab.  Prereq: 1210, 1215, 1250, 1610, or 1910H; and Math Placement Level L or M; or a grade of C- or above in Math 1120, 1130, 1131, 1148, or 1150, or above. Not open to students with credit for 1620, 1920H, 2310, 2510, 2610, or 2910H. This course is available for EM credit. GE nat sci phs course. GE foundation natural sci course. WST campus course fee: $50

Course offerings are subject to change.
2510 Organic Chemistry I  U 4
Introduction to structure, nomenclature, physical properties, preparation and reactions of alkanes, alkenes, alkynes, alcohols, ethers, epoxides, aldehydes and ketones. Other topics include stereochemistry, acids, bases, and reaction mechanisms. Au. 3 cl. 1 rec. Prereq: 1220 (123), 1620 or 1920H (203H). Not open to students with credit for 252.

2520 Organic Chemistry II  U 4
Continuation from 2510, including aromatic systems, carboxylic acids, carboxylic acid derivatives, amines, carbon-carbon bond-forming reactions, polymers, carbohydrates and amino acids. Sp. 3 cl, 1 rec. Prereq: 2510, 2610 (252) or 2910H (252H). Not open to students with credit for 2620 (253) or 2920H.

Community Leadership (COMLDR)
2189 Early Experience in Community and Extension Education  U 1
The early experience program is designed to help students explore careers and gain experience in Community and Extension Education. Sp. Arr. Prereq: Permission of Instructor. Not open to students with credit for AEE 280.

2530 Introduction to Agricultural Communication, Education, and Leadership  U 2
Creating an awareness and understanding of the agricultural communication, education and leadership profession. The class will provide a basis for educating, communicating, and leading by synthesizing theoretical knowledge with practical application. Sp. 2 cl. Not open to students with credit for AEE 230 or AgrComm 200.

3530 Foundations of Personal and Professional Leadership  U 3
Leadership theories, principles, and concepts. Research-based theories, methods of social scientific inquiry, individual strengths, personal leadership philosophy and vision, concepts of diversity and ethics, and professional development plan. Au. 2 1½-hr cl. Not open to students with credit for AEE 342.

1355 Toward Cultural Proficiency  U 3
Learner effectiveness in multicultural, multiracial learning environments. Strategies for obtaining insight into learners from varied cultures. Theory will connect practice through service-learning using cognitive, affective and psychomotor domains. Au. Prereq: Not open to students with credit for AEE 594. GE cultures and ideas and diversity soc div in the US course.

3537 Data Analysis in the Applied Sciences  U 3
A general education course focused on developing quantitative literacy and logical reasoning through analysis and interpretation of descriptive and inferential statistics. Students will be able to utilize SPSS to perform statistical data analysis, organize and summarize quantitative data, formulate conclusions, and critically evaluate research reports. Au. 2 cl, 1 2-hr lab. Prereq: Math 1130 or 1148. GE data any course.

Comparative Studies (COMPSD)
2301 Introduction to World Literature  U 3
Analysis of oral and written literatures of diverse cultures and historical periods. Au. Sp. 3 cl. Prereq: English 1110 or equiv. GE lit and diversity global studies course.

Construction Systems Management (CONSYM)
2305 Professional Development I  U 2
Business communications and professional development in construction systems management including informative and persuasive writing, academic planning, project management, research techniques, training, report writing and presentations. Sp. 2 1½-hr cl. Prereq: English 1110. Not open to students with credit for AGSYSMT 2305. This course is available for EM credit.

English (ENGLISH)
1109 Writing & Reading  U 4
Provides intensive practice in integrating academic reading and writing. Credit may not count toward graduation in some degree programs. Au, Sp. 4 cl. Prereq: English Placement Test score of 6. Not open to students with credit for 1110.01 (110.01), 1110.01H (110.01H), 1110.02 (110.02), 1110.02H (110.02H), 052, 060, or 110.03, or equiv.

1110.01 First-Year English Composition  U 3
Practice in the fundamentals of expository writing, as illustrated in the student's own writing & in the essays of professional writers. May be available as a service learning course with five hours community service required at the Lima campus only. Au, Sp. 3 cl. Prereq: EduTL1902 (108.01) or 1902.04 (108.01), or English Placement Level 4. Not open to students with credit for 1109 (109.01 or 109.02), 1110.01 (non-DL version), 1110.01H (110.01H), 1110.02 (110.02), 1110.02H (110.02H), 1110.03 (110.03), 1167H (167H ), 110.01. GE writing and comm course: level 1.

1110.03 First-Year English Composition  U 3
Intensive practice in fundamentals of expository writing illustrated in the student's own writing and essays of professional writers; offered in a small class setting and linked with an individual tutoring component in its concurrent course, 1193. Au, Sp. 3 cl. Prereq: English Placement Level 5 (Placement Level 4 allowed if student requests service). Concur: 1193. Not open to students with credit for 1110.01 (110.01), 1110.01H (110.01H), 1110.02 (110.02), 1110.02H (110.02H), 1167H (167H), 110.03, or equiv. This course is available for EM credit only through the AP program. GE writing and comm course: level 1.

1193 Individual Studies  U 1-4
Intensive practice in fundamentals of expository writing. Au, Sp. Prereq: Permission of Director of First-Year Writing. Concur: 1110.03. Repeatable to a maximum of 6 cr hrs or 6 completions. This course is graded S/U.

Environment and Natural Resources (ENR)
2100 Introduction to Environmental Science  U 3
Introduction to environmental science, the ecological foundation of environmental systems, the ecological impacts of environmental degradation by humans, and strategies for sustainable management of environment and natural resources. Au. 3 cl. This course is available for EM credit. GE nat sci bio course. GE foundation natural sci course.

2300 Society and Natural Resources  U 3
Introduction to interactions between humans, natural resources, and ecosystems from a social science perspective. Au. 2 1½-hr cl. GE soc sci human, nat, and econ resources course. GE foundation social and behavioral sci course.

2367 Communicating Environmental and Natural Resources Information  U 3
Concepts, skills development, and practice in accessing and communicating information about the environment and natural resources to varied audiences; emphasis on written and oral communication. Sp. 2 cl, 1 2-hr lab. Prereq: English 1110 and Soph. standing or above. GE writing and comm course: level 2.

3100 Introduction to Sustainable Agriculture  U 3
This course is an introduction to the issues, concepts and practices associated with sustainable agriculture. Since agriculture is a complex social-ecological system which integrates a wide range of economic, environmental and social aspects, this course uses a multidisciplinary approach to enable students to assess the sustainability of agricultural systems. Au. 2 cl, 1 3-hr lab.

Course offerings are subject to change.
Food Science and Technology (FDSCTE)

†3280 Water Quality Management  U  2
Causes, consequences, and solutions of pollution in lakes, rivers, wetlands, and groundwater; analysis of the physical, chemical, and biological indicators of water quality.
Au.

†3300 Introduction to Forestry, Fisheries, and Wildlife  U  3
This course is an introduction to the basic elements of forestry, fisheries, and wildlife (FFW) ecology and management for majors in environment and natural resources. This course has also been organized to provide an introduction to non-majors who may not have the opportunity to take further courses in these fields.
Sp. Prereq: 2100 or EEOB 3410. Not open to student with credit for 3300E.

2410 Brewing Science  U  2
To understand the scientific principles of brewing as related to modern beer production.
Sp. Prereq: Biology 1101 or 1113, and Chem 1110 or 1210

†4410 Hazard Analysis and Critical Control Points (HACCP)  U  2
Teaches the basics of HACCP. Upon completion of the course, students will understand the relationship of GMPs (Good Manufacturing Practices), SSOPs (Sanitation Standard Operating Procedures), pre-HACCP steps and the Seven Principles of HACCP. The students will select a food processing operation and develop a HACCP plan.
Sp. Prereq: 2400, or permission of instructor.

†4600 Food Composition and Function  U  3
This course provides a comprehensive introduction to diverse and modern topics in Food Composition and Function. At the end of the course, students should have clear understanding of the macro-components of foods, understand basic food chemistry principles, and understand the composition-function relationship in foods.
Au. Prereq: Biology 1101 or 1113, and Chem 1110 or 1210.

General Education (GENED)

1201 GE Launch Seminar  U  1
This course is first GE Bookend class. The Launch seminar provides a strong introduction to the broad goals of the General Education program, introduces key skills, and supports sustained growth in terms of attaining program goals.
Au. Sp. 1 cl. This course is graded S/U. GE bookend launch seminar course.

History (HISTORY)

1152 American Civilization since 1877  U  3
The political, constitutional, social and economic development of the United States from the end of Reconstruction to the present.
Au, Sp. 2 1½-hr cl. Prereq or concur: English 1110.xx. Not open to students with credit for 1150 or 2002. GE historical study course. This course is available for EM credit.

Horticulture and Crop Science (HCS)

2201 Ecology of Managed Plant Systems  U  4
Origin, diversification, and biogeography of plants inhabiting managed landscapes.
Sp. 3 cl, 1 2-hr lab. GE nat sci bio course.

2202 Form and Function in Cultivated Plants  U  4
An introduction to plant growth and development with special emphasis on structure function relationships important to productivity and quality in cultivated plants.
Sp. 3 cl, 1 2-hr lab. Not open to students with credit for 300, 300E, 310, 315, or PlantSci 300. GE nat sci bio course.

2204 Ecology of Managed Plant Systems  U  3
Origin, diversification, and biogeography of plants inhabiting managed landscapes.
Sp. 3 cl. Not open to students with credit for 2201. GE theme sustainability course.

2205 Ecology of Managed Plant Systems – Laboratory  U  1
Origin, diversification, and biogeography of plants inhabiting managed landscapes.
Sp. 1 2-hr lab. Prereq or concur: 2204. Not open to students with credit for 2201.

2250 Introduction to Professional Golf Management  U  2
Acquaints students with the PGM program, including program facilities and resources, components of the PGA/PGM Program, golf history, PGA Constitution, Career Enhancement, Golf Operations, and Customer Relations.
Sp. 1 cl, 1 rec. Not open to students with credit for 250 or 350.04.

3100 Introduction to Agronomy  U  3
An introductory course of row crop and forage agricultural production (agronomy). This course introduces students to row and forage crop species common in Ohio and surrounding states, and provides fundamental information on how these crops are managed in the region. Management aspects include site preparation, seasonality of management activities, and fundamentals of nutrient and pest management.
Sp. 2 cl, 1 2-hr lab.

3488.02 PGM Player Development  U  1
Focus on assisting students who have not passed the PGA of America’s Playing Ability Test. Encompasses golf skills evaluation, mental approach, development of a corrective action plan and re-evaluation of skills progress.
Au. 1 3-hr lab. Prereq: Permission of instructor. Repeatable to a maximum of 3 cr hrs. This course is graded S/U.

4191.02 PGM Internship  U  1
Real world job experience at golf courses, clubs, or resorts. Students are mentored by the on-site PGA professional and must complete specified written Work Experience Activities. Must be enrolled while on internship.
Su. Arr. Prereq: 2250 (250), and enrollment in Pre-Professional or Professional Golf Management majors. Repeatable to a maximum of 5 completions.

Mathematics (MATH)

1050 Precalculus Mathematics I  U  5
Fractions and decimals, basic algebra, graphing lines, factoring, systems of equations. Credit for this course will not count toward graduation in any degree program.
Au, Sp. 5 cl. Prereq: 1040 (40) or 50, or Math Placement Level T, or permission of department. Not open to students with credit for any Math course above 1050 (50). This course is available for EM credit.

1075 Precalculus Mathematics II  U  4
Algebraic, rational, and radical expressions; functions and graphs; quadratic equations; absolute value; inequalities; and applications. Au, Sp. 3 cl, 1 rec. Prereq: 1074 or 075; or a grade of C- or above in 1050; or Math Skills Assessment Level R or S; or ACT math subscore of 22 or higher that is less than 2 years old. Not open to students with credit for any Math course above 1075 except for 1116; or for any quarter-system class above 075, except for 1116. Credit for this course will not count toward graduation in any degree program. This course is available for EM credit. GE quant reason basic computation course.

Course offerings are subject to change.

University Calendar – Subject to change

Autumn Semester 2022

August 20-22  Welcome Days (Sat. – Mon.)
August 23  Classes begin (Tue.)
September 5  Labor Day – no classes, offices closed (Mon.)
October 11-14  Autumn Break – no classes (Thur. – Fri.)
November 11  Veterans’ Day – no classes, offices closed (Fri.)
November 23-25  Thanksgiving Break – no classes (Wed. – Fri.), offices closed (Thur. – Fri.)
December 7  Last day of regularly scheduled classes (Wed.)
December 9-15  Final examinations (Fri. – Thur.)
December 18  Autumn commencement – Columbus Campus
December 23  President’s Day observed – offices closed (Fri.)
December 26  Christmas observed – offices closed (Mon.)

Spring Semester 2023

January 9  Classes begin (Mon.)
January 16  Martin Luther King Day – no classes, offices closed (Mon.)
March 13-17  Spring Break (Mon. – Fri.)
April 24  Last day of regularly scheduled classes (Mon.)
April 26 - May 2  Final examinations (Wed. – Tue.)
May 6  ATI commencement (Sat.) – Wooster Campus
May 7  Spring commencement (Sun.) – Columbus Campus

Summer Term/Sessions 2023

May 9 - July 28  Summer Term (12 weeks)
May 9 - June 2  4-week Session #1
June 5 - June 30  4-week Session #2
July 3 - July 28  4-week Session #3
May 9 - June 16  6-week Session #1
June 20 - July 28  6-week Session #2
May 9 - June 30  8-week Session #1
June 5 - July 28  8-week Session #2
May 29  Memorial Day
June 19  Juneteenth National Independence Day
July 4  Independence Day
July 31 - Aug. 2  Term Final examinations
August 6  Summer commencement – Columbus Campus

Autumn Semester 2023

August 19-21  Welcome Days
August 22  Classes begin
September 4  Labor Day – no classes, offices closed
October 12-13  Autumn Break
November 10  Veterans’ Day observed – no classes, offices closed
November 22-24  Thanksgiving Break
December 6  Last day of regularly scheduled classes
December 8-14  Final examinations
December 17  Autumn commencement – Columbus Campus
December 25  Christmas – offices closed
December 26  President’s Day observed – offices closed
