

BIOCHEMICAL SCIENCES MAJOR – BIOLOGY SPECIALIZATION (A.S.) INTERESTED IN BIOLOGY MAJOR – PRE-HEALTH PROFESSIONS SPECIALIZATION (B.S.)

This model plan of study is presented as a suggested path to graduate in 4 years with an Associate of Science Degree with a major in Biochemical Sciences and specialization in Biology and a Bachelor of Science Degree with a major in Biology and specialization in Pre-Health Professions. It is intended to be a useful guide; however, each student is unique and should review the Degree Requirements and work with their advisor to develop an individualized course plan that best fits their personal academic background and goals.

NOTE: This sheet should not be used in isolation. In order to graduate in a timely manner, students must consult their academic advisor on a regular basis.

^a One possible course from approved ASC GE list or B.S. major requirement that has multiple options, as outlined in corresponding *Degree Requirements* document.

^b This course requirement may also be completed at ATI, and may be used as an elective in the A.S. major. See *Degree Requirements* for complete details.

^c A total of 25 additional specialization credits are needed for graduation. This needs to be considered as adjustments are made in the Junior and Senior Year listings based on ATI Elective Course selections.

BIOCHEMICAL SCIENCES MAJOR – BIOLOGY SPECIALIZATION (A.S.) INTERESTED IN BIOLOGY MAJOR – PRE-HEALTH PROFESSIONS SPECIALIZATION (B.S.)

This advising sheet is for Ohio State ATI students that wish to earn both an Associate of Science (A.S.) Degree with a major in Biochemical Sciences and specialization in Biology and a Bachelor of Science (B.S.) Degree with a major in Biology and specialization in Pre-Health Professions. The tables below outline the complete degree requirements to earn a B.S. with a major in Biology and specialization in Pre-Health Professions. The underlined courses are those that also fulfill a requirement for the A.S. Biochemical Sciences major – Biology specialization. These courses can count toward both degree programs simultaneously.

NOTE: This sheet **should not** be used in isolation. In order to graduate in a timely manner, students must consult their academic advisor on a regular basis.

^b Laboratory course

^c Must include a minimum of three laboratory courses within Core, Required, and/or Additional Courses

* courses are only offered at the Wooster (ATI) Campus

Note: A capital **OR** separates a pair of *equivalent* courses, a lowercase **or** separates a choice between *different* courses that fulfill the same requirement

Notes:

- Honors versions of courses substitute freely
- Electives must be at 2000 level or above
- Up to 3 credit hours of research, individual study, or internship may be counted toward the major and with approval of a major advisor, may be counted as a laboratory course
- At least 25 of 32 credits must be from Biochemistry, Biology, EEOB, Microbiology, or Molecular Genetics. Courses outside these departments must be pre-approved by a biology advisor

Additional Bachelor's Degree Requirements:

1. All students must complete at least one Social Diversity (●) course and two Global Issues (▲) courses. Please see the approved CFAES GE list for additional options.
2. A 2.00 cumulative CPHR is required as well as a 2.00 CPHR in the major and minor coursework.
3. Students must complete a minimum of 30 credit hours at The Ohio State University with at least 12 in the department in Columbus offering the major.
4. Applications to graduate must be submitted at least three semesters in advance.
