

Community Leadership

Sample Courses

Introduction to Agricultural Communication, Education, and Leadership

Oral Expression in Agriculture

Foundations of Personal and Professional Leadership

Principles of Food and Resource Economics

Agricultural Issues in Contemporary Society

Data Analysis in the Applied Sciences

The community leadership program is designed to equip students with knowledge and skills needed to exert a positive influence in a future leadership role.

The Associate of Science degree program at ATI allows students to complete 50 percent of the curriculum needed to complete a Bachelor's of Science degree in Agricultural Communication at The Ohio State University in Columbus.

The curriculum of the community leadership program will focus on a variety of courses designed to give students a broad understanding of community issues.

Career Prospects

ATI students who choose to continue their education at the Columbus campus complete a Bachelor of Science in community leadership, with specialization in either community and Extension education or leadership. Graduates are prepared for careers that include:

- Leadership development specialist
- Community development specialist
- Non-profit organization administrator
- Public relations specialist
- Youth leader
- Member services specialist
- Training and development officer
- Agricultural extension professional
- 4-H youth development specialist

Others have pursued graduate or professional school.
