COLLEGE of FOOD, AGRICULTURAL, AND ENVIRONMENTAL SCIENCES

OHIO STATE ATI

Begin your
Buckeye story
in Wooster

“My college success counselor worked closely with me to develop a detailed resume and helped me decide what I wanted to do with my career following graduation. I also worked with my campus transition counselor to ensure my path to the Columbus campus was smooth and stress-free.”—Skyelar Rock

Visiting campus in person is by far the best way to experience all that Ohio State ATI has to offer.

During your visit, you'll learn about admission, facilities, and support services.

You'll also tour campus and visit the apartment village, all while finding out more about your major of interest.

Schedule your visit today at ati.osu.edu/visit.

Engage. Discover. Learn. Create.

Make a difference in the world! At Ohio State ATI in Wooster, you can get started in a career in as little as two years, or you can complete the first two years of a bachelor's degree in the College of Food, Agricultural, and Environmental Sciences (CFAES). In fact, you can start nearly every one of Ohio State's 200+ majors here and save \$3,600+ in tuition and fees per year compared to the Columbus campus. As a top-ranked* two-year institution, Ohio State ATI offers the personalized education, hands-on experience, and campus community you're looking for. Get ready for the future!

Ohio State ATI students live in on-campus townhouse apartments and have both free parking and laundry!

ALYSSA'S TIPS FOR COLLEGE SURVIVAL

College can be an exciting and transformative time in your life, but it can also be overwhelming and stressful. However, with a little planning and organization, you can not only survive college, but thrive. Here are some tips to consider from one of our students as you enter this exciting new chapter in your life.

Scan the code or visit
go.osu.edu/alyssa to
read more from Alyssa!

Scheduling. A key strategy in college is time management. This goes without saying: Time for classes and homework has to take priority or precedence over hobbies. Buying a planner or creating a digital calendar can help you keep track of class schedules, study sessions, and of course, the fun that comes after you hit the books.

Attendance. Attendance is crucial for success in college. Although sleeping in and daily naps are great, good grades and knowing what's going on in class are great too. Attending class will help you stay engaged and focused on your coursework while also allowing you to receive materials and knowledge that is offered to you in class.

Organization. There are many ways to stay organized in college. Whether it's using schedule planners or keeping a clean apartment, being organized will reduce stress and allow you to better focus on your studies.

Self-love. Doing simple things such as getting enough sleep, eating healthy, and exercising regularly will not only help your body, but also your mind.

Involvement. Joining a campus organization or having a campus job can help you meet new people, develop new skills, and add some balance to your academic workload.

Asking for help. College can be challenging, but remember that you don't have to go through it alone. Don't be afraid to ask for help from professors, advisors, and/or tutors if you're struggling at any point.

Work and play. College can be stressful, so don't overwork yourself. Remember to make time for both school and your personal life.

Scan the code or visit go.osu.edu/collegeoverview to read more of Becca's thoughts.

WHAT TO EXPECT:

The Differences Between High School and College

“Transitioning from high school to college can be pretty nerve-wracking. It feels like there are so many unknowns, and your head is spinning in so many different directions. But remember these three things: Home isn’t too far away, there are no study halls in college, and you get out what you put in. College can be a great time if you put yourself out there and try new things.”

—Becca

Class Time

In college, you will spend roughly 12–16 hours a week in class, with breaks in between some classes. Some students choose to have breaks in between their classes so that they can do some homework and grab a bite to eat before their next class.

Class Size

Most classes at ATI have about 20 students in them. Your largest class might have roughly 80 students.

Class Challenge

The day-to-day schedule is very different than high school and the classes are obviously more difficult, but if you stay on task and put the work in, you will be perfectly fine.

TOP REASONS TO LOVE ATI

We asked our students to tell us what makes our campus so special; here are some responses.

Food in Wooster. The Guerne Drive-In is a hot place to cool down for ATI students. Best milkshakes in Wayne County!

Therapy dogs, including Zuzu. Therapy dogs are a huge hit here at ATI. Students love to interact with the animals on campus, especially Zuzu, who can be seen walking around the campus daily.

Home away from home. Ohio State ATI is not just any college. It is a home away from home. This is a place where students get to create new friendships. With ATI being a small campus, everybody knows everybody, which adds to the comfort factor of being away from home.

Hands-on learning. One of the biggest perks of coming to Ohio State ATI is hands-on learning. Students learn at the farms, in the greenhouses and equipment labs, on turf plots, and lots of other locations around campus. This prepares students for real-life situations.

Free laundry and parking. Here at ATI, a large laundry room offers multiple, free washers and dryers. Along with free laundry, ATI offers free parking. Save hundreds of dollars by not buying a parking pass. This makes taking care of everyday needs that much easier.

Small class sizes. The small class sizes at ATI are something that makes learning a lot easier. With small class sizes, you can focus more, and the professors notice more of the things you do (or don't do).

Competitive intramurals at the SAC. Intramurals are big here at ATI, where football, volleyball, basketball, disc golf, cornhole, and more are all offered as intramural sports. This gives students who have that competitive edge a chance to compete against others who have that same drive.

Great foundation for a career. Ohio State ATI is a great foundation for a career. You can enter the workforce right after graduation, or you can transition to Columbus to complete a bachelor's degree.

Scan the code or visit go.osu.edu/welovewooster to read more reasons to love the Wooster campus!

Campus Life

College is about preparing you for the real world. But it's also about the experiences you have along the way! Student clubs. Internships. Field trips. Studying abroad. Ohio State provides many opportunities for Buckeyes to participate in activities and events on both the Wooster and Columbus campuses.

“A friend of mine once said that college was the best four years of their life, and I have to agree with them. Nothing beats living on a campus with students who are just as involved, passionate, and crazy about agriculture and the Buckeyes as you are.” —Paige

Ready for some competition? Ohio State ATI's new Livestock Judging Team will compete nationwide as well as work with local FFA and 4-H judging activities. ATI also has an established Dairy Cattle Judging Team that has placed highly in state and national competitions.

Students can study, socialize, nap, and just hang out at The Gathering Place, a safe, welcoming space in Halterman Hall for underrepresented students and their allies.

Diversity at Ohio State ATI: The Student Perspective

Students Mickie and Tonya weigh in on diversity on campus: The Ohio State ATI campus community is always changing, and one way it has changed positively is the increasingly diverse student body. In addition, ATI is cultivating a safe environment for people from all walks of life. Students can participate in clubs and organizations that help build programming to educate and celebrate diversity. Those include Cultivating Change and MANRRS (Minorities in Agriculture, Natural Resources, and Related Sciences). MANRRS helps connect students in agriculture who are underrepresented in the categories of race, ethnicity, religion, and sexuality. MANRRS creates opportunities for students to network and build essential skills for the workplace.

Scan the code or visit go.osu.edu/wooster-manrrs to read more about diversity on campus.

Living at ATI

Our campus is a great place to live, with lots to do. Our townhouse apartments are not your average residence hall rooms. You'll enjoy all the comforts of home, plus cable TV, internet access, free parking, and even free laundry (just bring your own detergent). Enjoy cooking in your apartment kitchen or swing by Café Carmen or the CFAES Café, conveniently located on campus. We have student clubs and organizations to suit every interest, a recreational sports program, and campuswide social activities. Opportunities are available for students who would like to maintain a part-time job while at Ohio State ATI.

Each apartment includes an outdoor patio area perfect for grilling. (Yes—you can bring a grill!)

 Applewood Village
 Apartments.

CAMPUS APARTMENTS CONTAIN THE FOLLOWING:

Bedrooms: bunkable beds (with twin, extra-long, 80-inch mattresses), desk and desk chair (1 per student), nightstand (1 per room), lamp (1 per room), dresser/ wardrobe (1 per room), closet (1 per room)

Kitchen: refrigerator, oven

Living and Dining Areas: dining table and 4 or 5 chairs, guest chair, couch, end table, entertainment unit, 2 lamps

Apartmentwide: utilities (gas, water, electric, Wi-Fi, cable), window blinds, 1 recycling bin, 2 garbage cans

Student Success

Academic success is so much more than getting good grades. It's also about building skills that you will need for the rest of your life. Every member of the Ohio State ATI community is dedicated to helping you complete your program in a timely manner and stay on track for academic and career success. A full range of free, academic support services is available to you as a member of the Ohio State ATI community.

Sixty-three percent of ATI graduates transition to Columbus to complete their bachelor's degree. Visit ati.osu.edu/pathways to see your pathway from an ATI associate of science degree to a bachelor degree program in Columbus.

STUDENT SUPPORT SERVICES

The Student Resource Center is Ohio State ATI's hub for student support. We support your success as a student and beyond.

Career Development: Online and in-person career interest and skills assessment

Counseling Services: Career and personal counseling

Disability Services: Academic accommodations for students with documented disabilities

First-Year Experience Programs: Common concerns and questions of first-year students

Program Excel: A student support services program funded by a U.S. Department of Education Trio Grant

Tutoring Services: Individual or group sessions offered

Second-Year Transformational Experience Program (STEP): Students can earn up to \$2,000 for an individualized project developed with the help of their faculty mentor

Read more about the role our college success counselor can play in your success: go.osu.edu/college-success.

OTHER ACADEMIC SUPPORT

The Learning Lab: A great place to study, work on homework, and get academic help as needed

- Peer tutors offer assistance on a walk-in basis for English, chemistry, math courses, and more.

College Success Counselor: Provides academic strategies such as note-taking and study techniques, as well as career advising and resume help

Campus Change Counselor: Dedicated to easing your transition to CFAES at the Columbus campus

The majority of our professors are veterans and leaders in the industries in which they teach. They've mastered their specific areas of expertise the same way in which you will learn at Ohio State ATI: through firsthand, in-field experience. Our professors also maintain active networks of professional contacts that can help connect you with internships and employment opportunities.

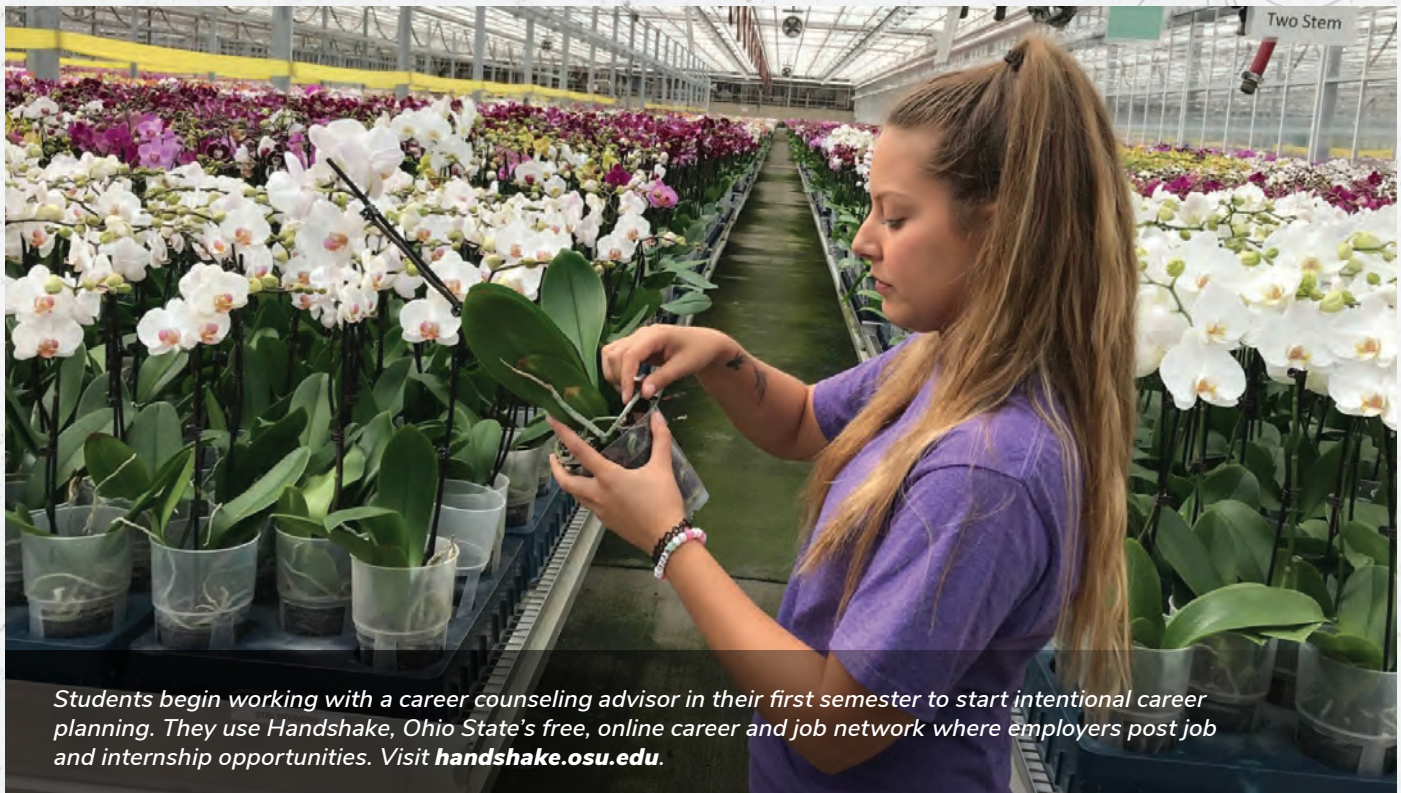

The personalized attention you will receive from Ohio State ATI faculty is invaluable. We provide personal faculty advisors who are well prepared to assist you with course selection and registration, academic advice, and career guidance.

Ohio State ATI is a National Coalition of Certification Center (NC3) leadership school. As you pursue your AAS degree in power equipment, you can earn industry credentials recognized at Kubota, Snap-On, and 3M.

Careers

As an ATI graduate, you'll be in demand to employers because of your real-world, applicable experience. As an ATI student, internship and job opportunities await. Twenty-eight strong, career-focused degree and certificate programs can be combined to match specific career goals. All programs include opportunities for hands-on learning, and many of our students have job offers in hand before they graduate, as a result of internship opportunities in several of our programs.

Students begin working with a career counseling advisor in their first semester to start intentional career planning. They use Handshake, Ohio State's free, online career and job network where employers post job and internship opportunities. Visit handshake.osu.edu.

TRANSITION TO COLUMBUS

Associate of science programs (AS)

Associate of science programs are specifically designed to help you transition from Ohio State ATI to the Columbus campus.

- Through Ohio State ATI programs, you can receive your associate degree and complete half of the degree requirements for a bachelor's from CFAES at the Columbus campus.
- Once at Ohio State ATI, complete 30 credit hours and maintain at least a 2.0 GPA, and you will be guaranteed acceptance into CFAES at the Columbus campus.
- Over half of our incoming students aspire to eventually transfer into a bachelor's degree program. Curricular roadmaps provide pathways to bachelor's degree programs and advise students in long-term course planning. Visit ati.osu.edu/pathways.

Agribusiness

Agricultural Communication

Agricultural Systems Management

Agriscience Education

Agronomy

Animal Sciences:
Specializations in Animal Biosciences, Animal Industries, and Horse

Biochemical Sciences:
Specializations in Biology, Food Science, and Pre-Veterinary Medicine

Community Leadership:
Specializations in Community and Extension Education, and Leadership

Construction Systems Management

Environment and Natural Resources:
Specializations in Environmental Science, and Natural Resource Management

Food Business Management

Horticultural Science

Sustainable Agriculture

1+3 Programs:

Entomology

Professional Golf Management

Each of these 1+3 programs allows you to complete the first year of the program at Ohio State ATI before transitioning to Columbus to complete the final three years of your bachelor's degree.

TWO YEARS TO GRADUATION

Associate of applied science programs (AAS)

Associate of applied science programs are hands-on and focused on developing practical knowledge and skills.

- Gain a paid internship experience and/or participate in a practical work experience that often leads to permanent employment.
- Additionally, pursue one of our nine-month certificate programs to enter the workforce with more enhanced, specialized training in your field of interest.
- Customize any program by adding a second major or a certificate program to maximize your career options.

Nearly 14% of ATI graduates report returning to a family business to utilize their ATI education.

Business Management:
Specializations in Agricultural Business, and General Business

Construction Management

Crop Management and Soil Conservation:
Specializations in Crop Management, and Soil Conservation

Dairy Cattle Production and Management

Greenhouse and Nursery Management:
Specializations in Greenhouse, and Greenhouse Engineering Technology

Horse Production and Management

Hydraulic Power and Motion Control

Landscape Horticulture

Livestock Production and Management:
Specializations in Beef, Small Ruminant, and Swine

Power Equipment

Turfgrass Management

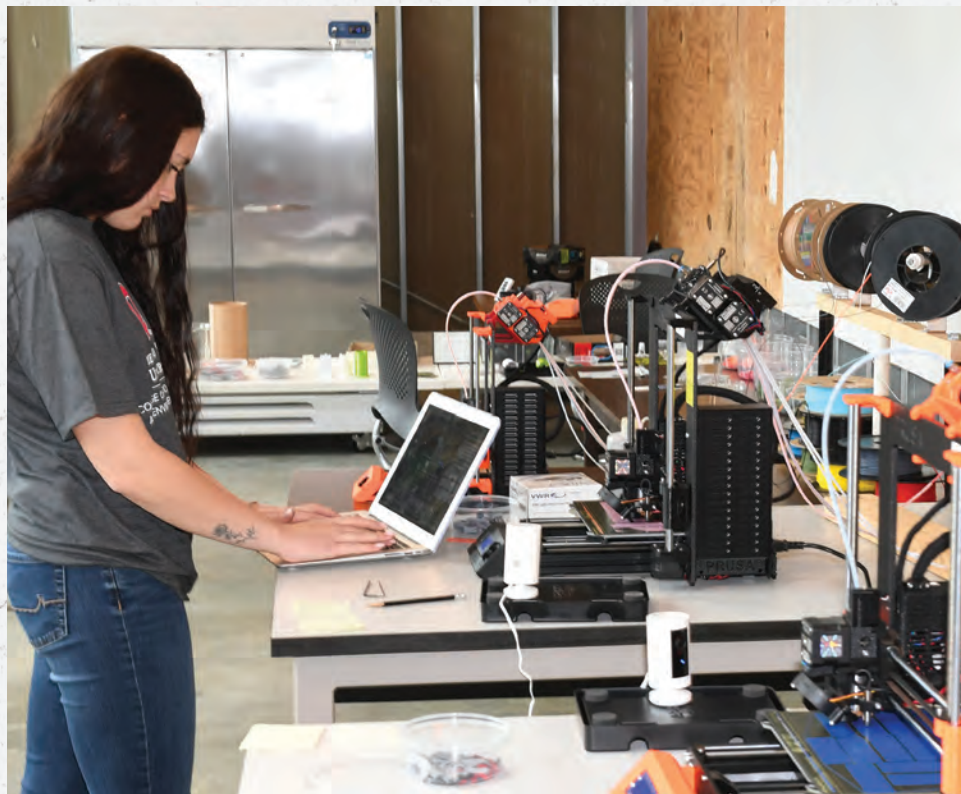

Nine-Month Certificate Programs:

Hydraulic Service and Repair

Turfgrass Equipment Manager

First-Class Facilities

Ohio State ATI is not your average college campus. Specialized programs call for specialized facilities, and we've got them. As a student, you'll have ready access to all of the facilities, equipment, and resources you'll need to gain real-world experience in your major—on campus or nearby—every day.

Whatever your area of interest, we're the ones who have the facilities to meet your needs.

Ohio State ATI's 1,700-acre working agricultural learning laboratory includes two dairy facilities; beef, swine, and goat operations; an equine center; and a land laboratory for crop and environmental research.

On-campus resources include environmentally controlled greenhouses with hydroponic systems, the latest software for computer-assisted design (CAD), sports fields, turfgrass plots, a model golf hole, and science labs equipped

with state-of-the-art instrumentation such as electrophoresis equipment for DNA analysis.

The CFAES Wooster campus encompasses Ohio State ATI and one of the United States' largest agricultural-related research institutes, which is also a source of internships and campus jobs for ATI students. Secrest Arboretum, a 110-acre outdoor laboratory and landscape garden, is also located at CFAES Wooster.

Greenhouse Complex

Stories From the Field

Internships provide students the opportunity to gain valuable, applied experience and make connections in professional fields they are considering for career paths. Research shows that students who participate in internships and co-ops complete college at higher rates than those who do not, are better prepared for the workplace, and are better paid. Check out some of the amazing opportunities our students have had.

Haley, an agricultural communication major, interned with the Toledo Metroparks as an outdoor skills programmer. She was responsible for helping people learn safety procedures for outdoor equipment, including kayaking, stand-up paddleboarding, archery, and tree climbing.

Owen earned an associate of science degree in animal sciences and interned with D6 Lantana Ranch, located in the Northern Sandhills of Nebraska. While there, he learned to run a beef cattle ranch, including how to brand, vaccinate, and tag calves to maintain their health. He was also responsible for fence maintenance, hay baling, and diesel equipment maintenance.

Vince, a turfgrass management major, interned at Laurel Valley Golf Club in Pennsylvania. He chose this internship because of the opportunities it provided, its on-site housing, and the ATI alumni who worked there. His responsibilities included mowing, watering, and spraying the greens.

Courtney graduated with an associate of science degree in agribusiness. She interned with Nutrien Ag Solutions, where she worked with other interns to monitor a field plot over the summer. Some of her tasks included taking soil and tissue samples, making deliveries, and building customer relationships.

Innovative Learning

The newest addition to the CFAES Wooster campus is the Wooster Science Building. The \$33.5 million, 60,000-square-foot building houses ATI chemistry labs; includes laboratory, classroom, lecture, and office space; and has the CFAES Café and a patio.

Ohio State ATI's library (below, right) is a popular study spot, complete with print and digital resources such as industry journals and online databases, as well as computers, printers, phone chargers, day lockers, popular DVDs, and even a napping station.

Take a 360-degree virtual tour of the Learning Lab: go.osu.edu/learning-lab. The space offers peer tutoring services as well as a quiet space for studying or working on assignments.

Ohio State ATI students have access to library resources from all Ohio State campuses and more than 80 other Ohio libraries.

Financial Aid and Scholarships

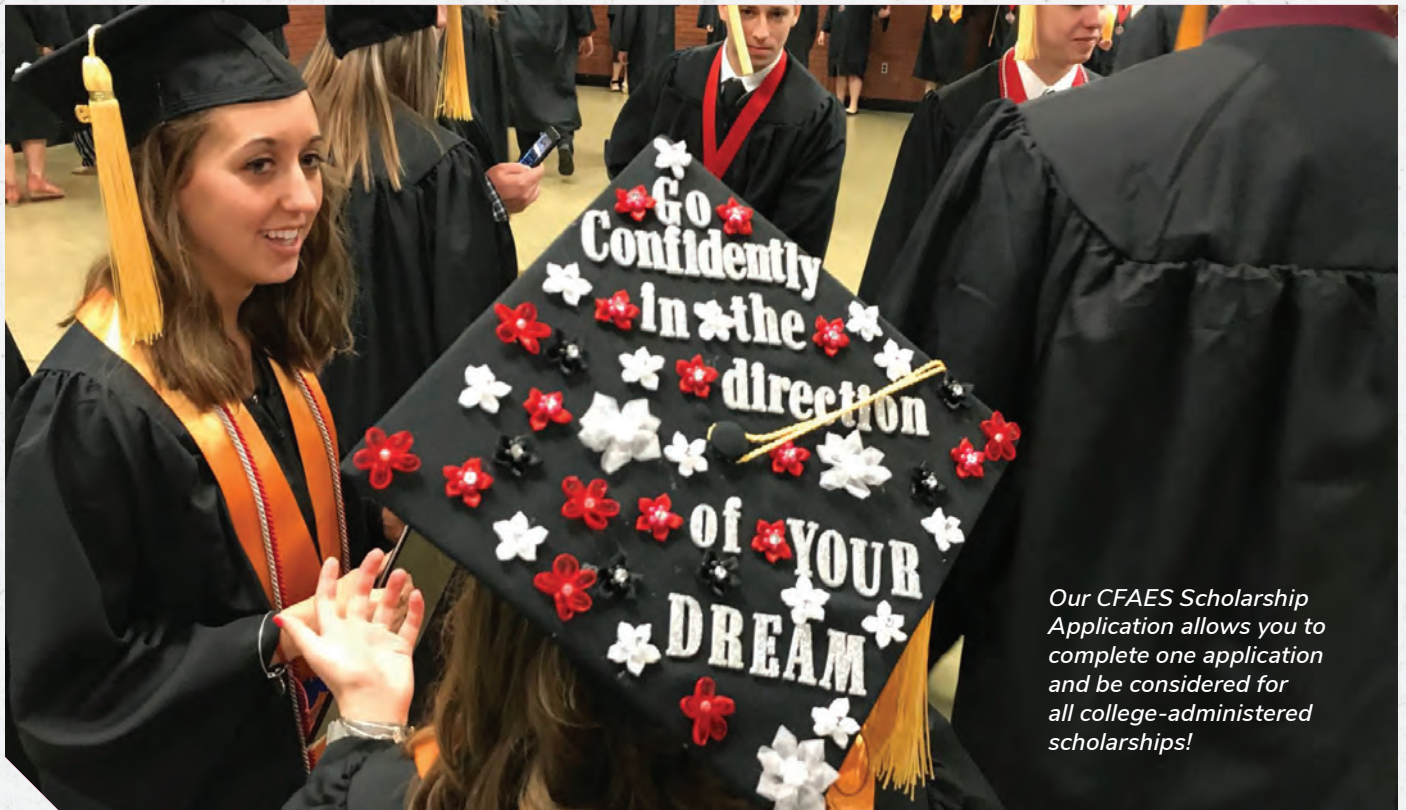

At Ohio State ATI, we understand you might be concerned about your ability to afford a college education. Assistance is available from an array of programs funded by federal, state, university, and private sources. Students who demonstrate significant financial need may qualify for grants, while students with less need may obtain low-interest loans. Our aim is to make it financially possible for all students at Ohio State ATI to meet their educational goals.

The Ohio State University makes every effort to make a world-class education both accessible and affordable.

The Ohio State Tuition Guarantee keeps costs at a flat rate for four years for each entering class, which provides incoming students and their families certainty about the cost of in-state tuition, general fees, housing, and dining:

Ohio State also provides federal, state, and university financial aid funds, such as the President's Affordability Grant, to eligible students in an effort to help families secure the funds they need to help pay for college.

Our CFAES Scholarship Application allows you to complete one application and be considered for all college-administered scholarships!

ESTIMATED COSTS

Estimated costs and expenses are used for determining financial aid eligibility. Amounts below are for full-time enrollment (12 hours or more) for a two-semester, standard academic year.

Note: These figures are for incoming freshmen. You can find additional information about fees at go.osu.edu/fee-tables.

QUESTIONS? Visit ati.osu.edu/financial_resources.

2023–24 ACADEMIC YEAR

Incoming Freshman, Ohio Resident (living on or off campus)

Books and Supplies	\$1,030
Miscellaneous Expenses	\$2,334
Transportation	\$1,404
Federal Student Loan Fees	\$40
Total Estimated Cost	\$55,279

FINANCIAL AID 101

Your college education is one of the most important investments your family will make, and Ohio State ATI gives you an outstanding return on your tuition investment. Many students rely on financial aid to reach their goal of a college education.

There are many different forms of financial aid: loans, work-study, grants, and scholarships. So, what's the difference between them all?

Loans are borrowed funds that must be repaid. Both students and parents are eligible to apply for educational loans.

Work-study is awarded based on financial need and is an employment opportunity for students to earn money. Students may apply for various campus jobs at Ohio State ATI's agricultural learning lab, Café Carmen, CFAES Café, greenhouses, the library, administrative offices, or CFAES Wooster research facilities.

Grants are free types of assistance awarded through federal, state, or university funds to undergraduate students with high financial need.

Scholarships are funds that do not need to be repaid. These awards come from many places (your high school, your community, the federal government, the university, the college, private organizations, etc.) and vary in amount.

Students who complete the Ohio State ATI Scholarship Application are considered for all scholarships that are available only to Ohio State ATI students. Scholarship criteria include factors such as academic performance, class rank, field of study, ACT/SAT scores, financial need, and geographic region.

FINANCIAL AID CHECKLIST

- ☐ Apply for admission to Ohio State ATI. The application can be completed online at apply.osu.edu. Students may begin applying **Aug. 1, 2023**.
- ☐ Students and parents should begin the financial aid application process by obtaining a Federal Student Aid ID (FSA ID) from the U.S. Department of Education. An FSA ID allows students and parents to sign a 2024–25 Free Application for Federal Student Aid (FAFSA) electronically. To obtain your FSA ID, go to fsaid.ed.gov.
- ☐ Complete your 2024–25 FAFSA online at fafsa.gov. Use The Ohio State University code **003090**, which includes Ohio State ATI. The FAFSA is available starting Dec. 1, and the priority deadline for Ohio State ATI is **Feb. 15, 2024**.
- ☐ Complete the Ohio State ATI and CFAES Scholarship Application, available online beginning **Oct. 1** at ati.osu.edu/scholarship-application. Note: The priority deadline is **Feb. 15, 2024**. **You must apply for admission in order to complete the scholarship application.**
- ☐ Complete The Ohio State University ScholarshipUniverse Application for internal and external scholarship opportunities at go.osu.edu/ssu. Log in with your Ohio State name.#. The priority deadline is **Feb. 1, 2024**. **You must apply for admission in order to complete the scholarship application.**

BEST PRACTICES WHEN COMPLETING THE OHIO STATE ATI AND CFAES SCHOLARSHIP APPLICATION

1. Complete your 2024–25 FAFSA, which is available starting Dec. 1. Some scholarships are dependent on financial need.
 - Priority deadline: **Feb. 15, 2024**
 - FAFSA website: fafsa.gov
2. Complete and submit the Ohio State ATI and CFAES Scholarship Application.
 - Priority deadline: **Feb. 15, 2024**
 - Scholarship website: ati.osu.edu/scholarship-application
3. Select “Wooster/ATI” as your campus location. Scholarships are nontransferable between Ohio State campuses.
4. Be specific, and respond to every question. Tip: Ask a parent, counselor, or teacher to proofread your application.

If selected, you will be mailed a notice of award containing specific instructions on how to accept your award. Scholarship recipients are typically announced beginning in late March.

For a list of available scholarships, visit go.osu.edu/ATIscholarships. One scholarship application covers all these scholarships!

Buckeye Business

1. VISITING CAMPUS

The best way to know if a college is the right “fit” for you is to visit the campus, talk to an admissions counselor, meet students and professors, and check out the housing and educational facilities firsthand. Please see ati.osu.edu/visit to learn more about visiting Ohio State ATI.

2. ADMISSION FOR OHIO RESIDENTS

Ohio State ATI is an “open admission” campus for Ohio residents starting college directly after high school. If you are an Ohio resident who has graduated from an accredited Ohio high school, or you have earned an Ohio-awarded GED and have never attended college (other than College Credit Plus during high school), you may enroll as an Ohio State ATI freshman.

Transfer students who have attended any college since high school graduation must have a cumulative GPA of 2.0 or better from ALL previous college coursework to transfer to Ohio State ATI. (Non-Ohio residents’ and Ohio home-schooled students’ admissions criteria can be found online at ati.osu.edu/futurestudents.)

3. APPLYING FOR ADMISSION

Apply for admission online at apply.osu.edu.

When you take the ACT or SAT, write in The Ohio State University code, which also includes Ohio State ATI, so your score is sent to us automatically. Our ACT code is 3312; our SAT code is 1009. Neither the ACT nor SAT is required for admission for most Ohio resident freshmen. However, your ACT or SAT score, if provided, is used for course placement and scholarship decisions.

4. APPLICATION DEADLINES

Visit ati.osu.edu/futurestudents for deadline information.

5. APPLYING FOR NEED-BASED FINANCIAL AID

Complete and file a 2024–25 FAFSA on or before the priority deadline of Feb. 15. The FAFSA is available starting Dec. 1, and it determines your eligibility for all federal, state, and institutional need-based aid programs. The Ohio State University FAFSA code, which includes Ohio State ATI, is 003090.

Complete a FAFSA at fafsa.gov.

Priority deadline: Feb. 15

6. APPLYING FOR MERIT-BASED SCHOLARSHIPS

Scholarships are awarded based on prior academic performance, class rank, GPA, and ACT or SAT scores. Complete the Ohio State ATI and CFAES Scholarship Application online beginning Oct. 1. The application is available online only: ati.osu.edu/scholarship-application.

Priority deadline: Feb. 15

7. NEXT STEPS AFTER YOU APPLY

Once you have applied for admission, be sure to activate your Ohio State username and password. After you are admitted, you will want to set up your BuckeyeMail account and watch your BuckeyeLink for financial aid, orientation, and other Buckeye business.

Visit ati.osu.edu/steps for instructions.

Scan the code or visit apply.osu.edu to apply for admission online beginning Aug. 1 of your senior year.
